Troubleshooting for Charging Issues

Phone Not Charging Consistently

1. Make sure your phone case is a MagSafe case.
2. Unplug the charging adapter and plug it back in after a few seconds.

AirPods Not Charging

1. AirPods Pro 1-2 or AirPods 2-4 with MagSafe/Wireless cases are compatible.
2. AirPods 1-4 with Lightning/USB-C cases are not compatible.
3. Check your AirPods package or order to make sure your AirPods support wireless charging.

Watch Not Charging

1. Unplug the charging adapter and plug it back in after a few seconds.
2. Update watch software through Watch app on the Phone > General > Software Update.

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance between 20cm the radiator your body: Use only the supplied antenna.
