Desiccant Box

User Manual

Triple Freshness preservation+ Food-grade Safety: The moisture-proof effect lasts for over one month. It is recommended to replace the desiccant once a month.

Moisture Absorption and Freshness Retention: Ensures that every bite your pet eats is crisp and fresh.

Food Contact Safe Materials: Made from materials safe for contact with food, ensuring effective moisture absorption while keeping the pet food fresh and safe.

STEP1 Open the package

Open the package and take out the base.

**STEP3** Install the food bowl

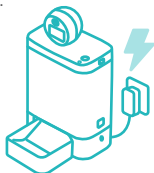

First lift the base, make sure there are two holes at the bottom, insert the two raised points on the edge of the food bowl into the holes, assemble and place on the ground.

**STEP5** Install the desiccant

Tear open the sealed bag of desiccant, and buckle the round buckle into the concave position of the lid. You can hear a "click" to ensure it will not fall off.

**STEP7** Plug in

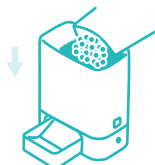

Plug in the power cord into an outlet to give it power.

**STEP2** Install the food barrel

Slide the "food barrel" down the "base" column until you hear two "clicks".

**STEP4** Add cat food

Pour the pet food into the food barrel (the pet food dimension needs to be smaller than 16mm per kibble)

**STEP6** Install the lid

Align the buttons on both sides of the lid with the sides of the food barrel and press down from there until you hear "click", and there will be no gap between the food barrel and the lid.

**STEP8** Double-click to dispense food

Double-click the device button to add food to your pet.

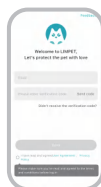

STEP1

Scan the QR code to download the App or search for "Limpet" in the App Store to download it.

Safety notification

I STEP1

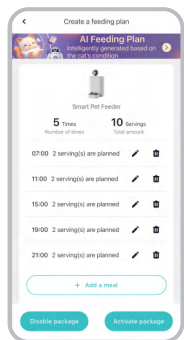

You can find the feeding schedule in settings to adjust it

**I STEP2**

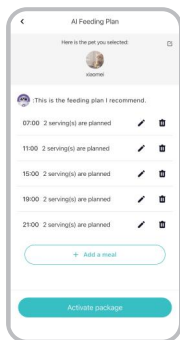

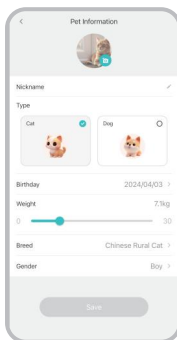

Click the "Add a Meal" button and enter the specific plan to adjust the plan according to your wishes.

**I STEP3**

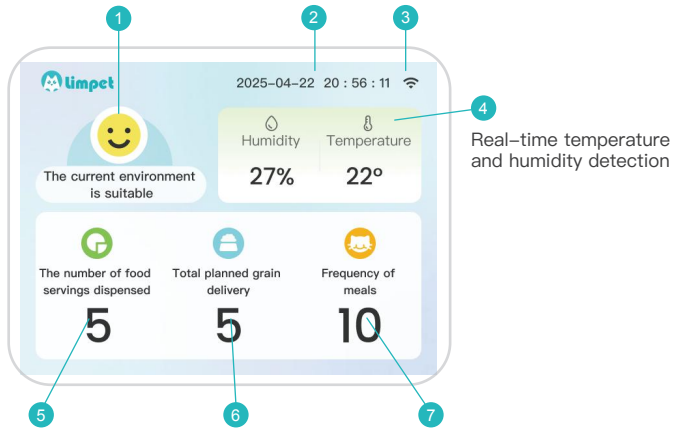

Or click on the AI feeding plan and enter the pet information according to the guidance.

**I STEP4**

The AI will automatically generate a scientific feeding plan for your pet based on the input pet information.

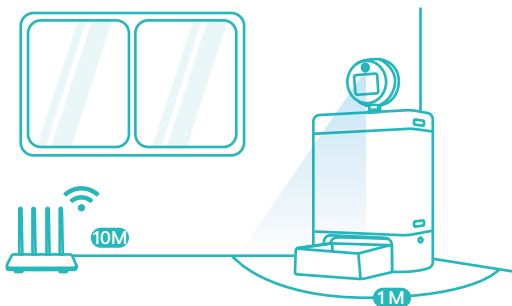

Current Environmental Assessment Time display Network status

Display of the number of food portions delivered on the day.

Display the number of planned food distributions for the day.

Display the number of times the pet has eaten on that day.

Placement Guidelines

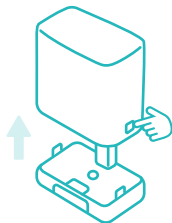

Place against a wall in bright place: within 10 meters of the WI-FI router; There is no obstruction within 1 meter in front to avoid collisions when cats are playing..

STEP1

Take out the food barrel and wash or wipe it directly. Do not wash the base and the barrel lid with water, but can wipe them with a damp cloth.

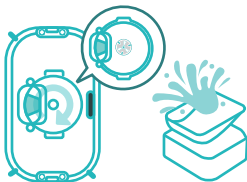

tips : Press the buttons on both sides of the food barrel at the same time and lift the food barrel upwards to separate the food barrel from the base.

STEP2

There is a rotating box at the bottom of the food barrel, the food bowl can be disassembled and cleaned. The plastic food box and the stainless steel food bowl can be washed. It is recommended to clean them once a week.

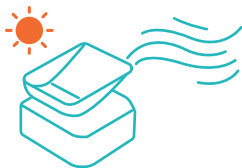

STEP3

Reinstall the rotating box.

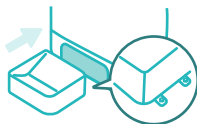

STEP4

The plastic food box and the stainless steel food bowl should be put back after they are completely dry.

STEP5

Reinstall the food bowl:
When installing the food bowl back into the machine, lift the base of the feeder slightly. Align the two buckles of the food bowl and buckle them together, then lay the feeder flat.

FCC STATEMENT

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Information

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

| WARRANTY POLICY

During the warranty period, if there is a product performance failure caused by non-human damage, you can enjoy the following three guarantees:

1. Within 7 days from the date of purchase, if the product has quality problems and cannot be used normally, you can enjoy free return or exchange service after testing and confirmation.
2. If the product has quality problems and cannot be used normally within 15 days from the date of purchase, you can enjoy free replacement or repair service after testing and confirmation.
3. Within 12 months from the date of purchase, if the product has quality problems and cannot be used normally, you can enjoy free repair service after testing and confirmation.

| NON WARRANTY REGULATIONS

The following situations (but not limited to the following situations) are not included in the scope of the "Three Guarantees":

1. Lack of valid purchase voucher or the validity period of the "Three Guarantees" service has expired;
2. Unauthorized repair, misuse, collision, liquid intrusion, abuse, modification, improper use of accessories other than this product, or tearing and altering of labels;
3. Damage caused by force majeure.

| ATTENTION

*Please use the product indoors. Do not place it in a place where it can be exposed to sunlight, as this will affect the function of the device. Please place it away from fire sources.

*This product is only suitable for dark dry pet food with a maximum size of no more than 16mm. Do not put wet food in it.

*If not in use for a long time, please take out the spare AA batteries, clean out the remaining food in the food barrel and keep it clean.

*During the operation of the equipment, do not put your hands or other foreign objects into the food outlet.

*Before cleaning or disassembling the device, please disconnect the power. Do not put the lid and base in water for cleaning.

*Please do not disassemble or modify the product by yourself, please use the standard accessories. Children must use this product under adult supervision.
