Warranty & Safety

All SnapWireless products are protected and covered against product defects in materials, workmanship and faults for a period of one (1) years from the date of original purchase, when purchased through our online store or an authorised reseller. Changes or modifications not expressly approved could cause damage to the product and may void the user warranty.

Technical Specifications

Model: PPU-240
Input: AC100-240V/50-60Hz/0.6A
Contact Output: DC 5V/3A
Type-C Output: DC 5V/3A, 9V/2.22A, 12V/1.67A, 20V/1.5A
Type-C + Contact Output: DC 5V/1.5A + DC 5V/1.5A

Model: PPU-247C
Capacity: 10,000mAh (38Wh)
Contact Input: DC5V/3A
Type-C Input: DC 5V/3A, 9V/2A, 12V/1.5A (30W)
Type-C Output: DC5V/3A, 9V/2.22A, 12V/1.67A (20W)
Type-C Cable Input: DC 5V/3A, 9V/2A, 12V/1.5A (18W)
Type-C Cable Output: DC 5V/3A, 9V/2.22A, 12V/1.67A (20W)
Lightning Output: DC5V/3A, 9V/2.22A, 12V/1.67A (20W)
Wireless Output: 5W, 7.5W, 10W, 15W

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help.

Note: The Grantee is not responsible for any changes or modifications not expressly approved by the party responsible for compliance. such modifications could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement.

PowerPack Universal 2

6 in 1 Travel Power Bank

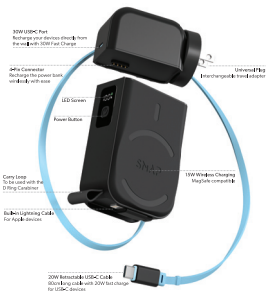
Back of User Manual

91MM 91MM

145MM

Welcome to your PowerPack Universal 2

Let us help you set up your new charger quickly with this guide.



What's Included

• PowerPack Universal 2 • AU/US/UK/EU Plugs • D Ring Carabiner

Wireless Charging

1. Start by using a Qi-enabled device, also ensuring it is MagSafe compatible or that you are using our SnapMag case or SnapMag Ring.
2. Place the PowerPack Universal 2 with the Snap logo facing the back of your device; it should 'snap' into position.
3. Press the power button once. The LED indicator will appear, and charging will begin immediately. Double press to power off.

Cable Charging

1. Ensure you have a mobile device with a USB-C charging input port or a Lightning charging input port.
2. Choose from either the InfinityCord™ retractable USB-C cable, Lightning cable or the two built-in USB-C ports. Then simply plug the cable directly into your compatible device and charging will begin immediately.

Note: The USB-C port on the top of the PowerPack Universal 2 will only work when it's plugged directly into an AC wall outlet

Universal Recharging

1. Start by attaching one of the four international plugs included in the box, depending on which country you are in.
2. Then simply plug in the top AC head into any AC power outlet
3. Now you have two options to recharge the power bank. Either magnetically attach the power bank to the bottom of the AC plug head via the 4 pin connectors, or using the retractable cable, you can plug this into the 30W USB-C port.
