

# G200

Magnetic Suction LED Speaker

## PRODUCT USER GUIDE

Tank you for purchasing the G200. We kindly ask you to read and save this instruction manual for future reference. Please read all the instructions before using this speaker.

### Product Overview:

1. Press and hold for 3s to turn ON/OFF
2. Type-C charging port, power 5V-1A
3. Magnetic Base

### Function:

#### Bluetooth

Turn on the device power, the LED light flashes, search for "G200" on your phone or other external Bluetooth device, select it, and there will be a prompt sound after successful connection. After disconnecting the Bluetooth connection, the device will automatically turn off the power within 5min to save power.

#### TWS

The device is in the power on state. Double clicking the power button will produce a prompt sound, and then another device will perform the same operation. After successful pairing, both devices will simultaneously emit a prompt sound

### LED lighting

Press the power button 3 times in a row to turn OFF/ON the lights.

### Magnetic Base

For MagSafe enabled iPhone devices or MagSafe ready phone cases, simply connect G200 to the MagSafe ring. For devices that do not support MagSafe, such as Android, please use the adhesive metal tray attached to the back of the device and connect G200 to the metal tray

#### FCC Warning

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

#### Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
