• Package Includes

1 x 10000mAh Power Bank
1 x Charging Cable
1 x User Manual

• Caution

01. Please fully charge the power bank before first use.
02. Please make sure that the standard cable with the appropriate spec is used, otherwise it can lead to damage.
03. Confirm the voltage of the electric is 5V before charging.
04. Do not drop, knock, disassemble or attempt to repair the power bank.
05. Do not immerse the power bank in water or damp environments.
06. Do not expose or put the power bank close to strong heat sources or anywhere flammable.
07. Do not leave the power bank in the car. The higher temperature and lighting would lead to potential damage.
08. Keep the power bank away from children.
09. Do not put any item into the power bank USB input or output ports to avoid any shortage or damage of power.
10. Completely charge every four months to avoid shortening the power bank's life span.

• Warranty

We provide all customers 12-months warranty from the date of the original purchase if the device fails due to manufacturer defects.
Please contact us by email to start a warranty claim and we'll instruct you on how to return or replace the product.

FCC Information and Copyright

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

15.19 Labelling requirements.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC RF warning statement: the device has been evaluated to meet general RF exposure requirement , The device can be used in portable exposure condition without restriction.
