-4-

#### • Wireless Microphone Instruction

1. Short press the button to switch the sound effect.
2. Short press the button to increase microphone volume, and long press to increase the echo effect.
3. Short press the button to decrease the microphone volume, and long press to decrease the echo effect.
4. Long press the button to turn on/off the microphone, and short press to mute the mic.

#### • Bluetooth Mode

**Step 1:** Press the "M" Button to enter Bluetooth mode. When you hear "Bluetooth Mode", you can enter the pairing status.

**Step 2:** Open your phone, enable the Bluetooth function, find "HUABAO-A111", select pair and connect.

**Step 3:** When you hear "Connected", Bluetooth is successfully connected. And the sound is ready to play from the speaker.

-5-

#### • USB/TF Card Mode

1. After turning the machine on, insert a TF card or USB flash drive. The machine will prioritize playing songs from the TF card or USB flash drive. You can switch different modes by pressing the "M" button, but you can not select USB/TF Card mode when you don't have a USB or TF card inserted.
2. Support up to 64GB capacity USB flash drive/TF card, and only MP3 files can be read in USB/TF Card mode, please note the audio format. When removing the TF card or USB flash drive, the machine will automatically enter Bluetooth mode.

#### • FM Mode

While the machine is on, press the "M" button to enter FM mode. You will hear "FM Mode", then the machine enters radio mode. Long press the "Play/Pause" button to automatically search for stations.

#### • Audio Input(AUX)

Insert an audio input cable while the machine is on, and the machine will automatically enter AUX mode.

#### • Charging

1. Insert the charging cable into the speaker and connect it to a DC5V charger to charge the speaker.
2. The speaker is charging when the red light is on. The red light will turn off when the speaker is fully charged.

#### • TWS Function

Turn on two speakers. Press the "M" button on one of the speakers to enter Bluetooth mode and connect. Press the "TWS" button for wireless pairing. Then, the two speakers will be matched as a pair for simultaneous sound.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
