

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing three electronic components (two black housings and one green circuit board) placed on a blue surface next to a black L-shaped ruler. The ruler has white markings in millimeters and centimeters. The components are positioned near the 10 cm mark on the horizontal ruler and the 10 cm mark on the vertical ruler.
Solder Board-Component View 1	 A photograph showing a single green circuit board component placed on a blue surface next to a black L-shaped ruler. The ruler has white markings in millimeters and centimeters. The component is positioned near the 10 cm mark on the horizontal ruler and the 10 cm mark on the vertical ruler.

Solder Board-Component View 4	 A photograph of a green printed circuit board (PCB) component, likely a USB dongle, resting on a blue textured surface. The component features a large silver USB connector on the right side. On the left side of the PCB, there is a circular component, possibly a microphone or a small antenna, and several small surface-mount components. The PCB has some text printed on it, including "AB100013" and "2024/10/30".
Antenna View	BT Antenna  A photograph of the same green PCB component, viewed from the side. A red rectangular box highlights a small, rectangular component on the top edge of the PCB, which is identified as the BT Antenna. A red line points from the text "BT Antenna" to this component. The component has a white label with "BT" printed on it. The rest of the component is identical to the previous view.
