precautions

1. Connecting a DC-5V power supply will automatically activate the charging function.
2. It is recommended to use a 5V-2A charger, as using a low-power charger can result in longer charging times.
3. Do not manually rotate the fan head to avoid damaging the automatic shaking function.

Product parameters

Product Name	camping Fan
Product Model	HY-8226A
Rated Power	10W
battery	rechargeable lithium battery
Input voltage/current	Type-C 5V-2A
Output voltage/current	USB 5V-2A
LED	24 white LED lights
Material	ABS
Wind speed	Low wind speed: 2.5 m/s High wind speed: 4.2 m/s

Packaging accessories

1. Charging fan with light: 1
2. 7 key remote control: 1
3. Type-c to USB charging cable: 1
4. Instruction manual: 1

Safety Tips

1. Do not expose the product to high temperatures or heat sources.
2. Please keep the product away from damp places.
3. Do not place this product near or in the presence of a fire source to prevent a fire.
4. Do not disassemble, modify, or cut this product by yourself.
5. If any abnormalities are found during use, please stop using this product immediately.
6. If you do not use this product for a long time, please charge it every 2-3 months to maintain battery performance. Long term non charging may lead to a shortened battery life.

warranty policy

The warranty period for this product is 12 months. If there are material or process defects, we will replace any parts or provide new products, but there will be certain limitations. This warranty does not cover damage caused by unauthorized use or repair, or damage caused by accidental impact or normal wear and tear. If the product cannot be repaired or restored, we reserve the right to provide similar or updated models as substitutes. If you have any questions about our products, please feel free to contact us at any time.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure statement

The device has been evaluatec to meel general RF exposure requirement. The device can be used in portable exposure condition without restriction.
