Re: Labelling of PIM-C Device in Accordance with FCC Requirements

To whom it may concern:

This is a record of the Federal Communications Commission (FCC) labelling of the device with FCC ID 2BOFL80030198560151.

The following labelling is employed to satisfy sections 2.1033(b)(5) and 2.925 of the FCC Code of Federal Regulations (CFR) Title 47.

Figure 1 shows the black and white label design.

Figure 1 - PIM-C product label (dimensions are 55 mm x 30 mm).

The labels are printed on 55 mm (width) by 30 mm (height) commercial-grade self-adhesive label blanks using a Zebra ZD230 printer in its Direct Thermal mode. Figure 2 shows how the label is permanently affixed to the top of a PIM-C enclosure using the self-adhesive label backing. The label is readable without magnification and cannot be easily removed.

Figure 2 - PIM-C device label as permanently affixed to the top of the enclosure.
