

Antenna Specification

Manufacturer: Shenzhen Helixun Technology Co., Ltd.

Address: Room 1004, Building 1, Jinhuan Yu Building, No. 56,
Tiezai Road, Gongle Community, Xixiang Street,
Bao'an District, Shenzhen

Product Specification

A. Electrical Characteristics

Frequency: 2407MHz~2457MHz

VSWR: <3.0

Efficiency: >30%

Impedance: 50Ohm Polarization Line

Max Peak Gain :0.2 dBi

B. Material&Mechanical Characteristics

Material of Radiator: Cu

Connector Type: NO Dimension

Type: PCB

C. Environmental

Operation Temperature: -30°C ~ +60°C

Storage Temperature: -30°C ~ +60°C

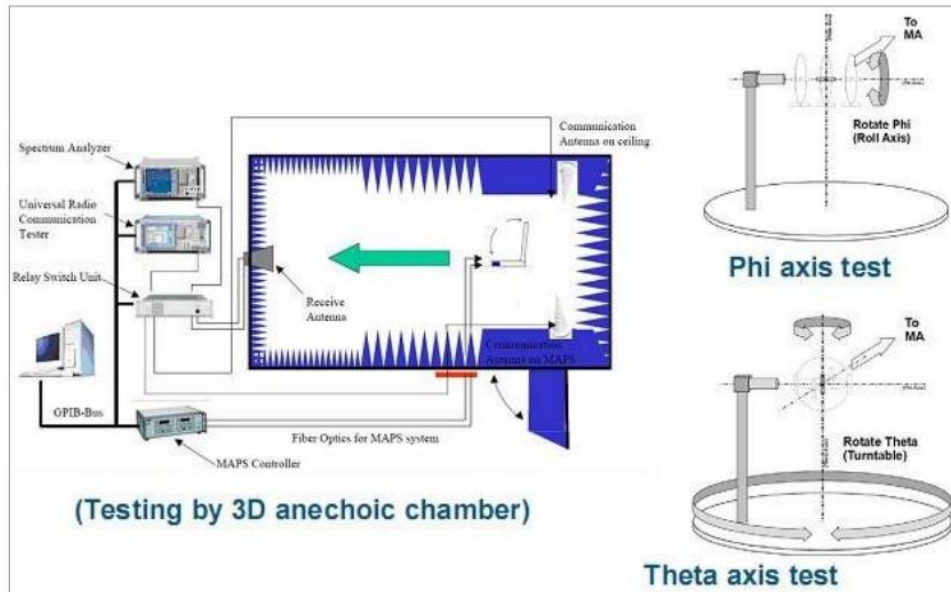

Test Equipment&Conditions

1. Network Analyzers:

Agilent 8753D5071B

2. Communications Test Set:

Agilent E5515C 3.3D Chamber Test System

Efficiency&Gain

2407MHZ -0.03 dBi

2441MHZ 0.12 dBi

2457MHZ 0.2 dBi

RadiationPattern:
