

Product Manual

Product Name: LUCI PIN

Model: Y40812A-210-01-00_PIN

1. **Product Overview** Thank you for purchasing the LUCI PIN! This product is an intelligent wireless recording device designed to provide life logging and query functions. Please read this manual carefully before using the device to ensure proper use and maintenance.

1. **Product Specifications** Unable to display this content outside Feishu documents.

Parameter	Specification
Wireless Frequency	2.4 & 5 GHz (802.11 a/b/g/n/ac)
Communication	Wi-Fi / Bluetooth 5.0
Input Voltage	5 V DC
Power Consumption	1.4 W
Operating Temperature	-10 °C to 40 °C
Size	25.6×54.4×23.2mm
Weight	35.5g

1. Operating Instructions

• Power On / Off

- Power On: Short press the power button, the indicator light will turn on.
- Power Off: Long press the power button for 5 seconds, the indicator light will turn off.

• Device Pairing

- **Bluetooth Device Activation and Binding:**
 - Open your phone and enable Bluetooth.

- Turn on the LUCI PIN.
- Open the LUCI PIN app and tap [Connect] to start scanning
- .After successful scanning, connect the device.
- Once connected, activate the device.
- After activation, start using the device.
- **Device Connection (Already Bound Devices):**
 - Enable Bluetooth on your phone.
 - Turn on the device's Bluetooth.
 - The app will automatically search for the device, and once connected, you can start using it.
- **Device Usage**
 - **Life Logging Recording:**
 - Turn on the privacy switch to begin recording.
 - Turn off the privacy switch to stop recording.
 - **HD Video Recording:**
 - Turn on the privacy switch and double-click the power button.
 - Turn off the privacy switch to stop recording.
 - **Importing Videos to Phone:**
 - Connect the device.
 - Select the videos you wish to import to your phone.
 - Tap [Import].

1. **Safety Instructions** To ensure safe use of the device, please follow these guidelines:

- Do not expose the device to extreme temperatures (e.g., above 40°C or below -10°C).
- Avoid contact with water or moist environments; the device is not waterproof.

- Do not disassemble or modify the device to avoid damaging its functionality.
 - Use only the original power adapter to avoid damage from improper voltage.
-

1. FCC Compliance Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

▲ Note:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different

from that to which the receiver is connected.

-- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

1. Maintenance and After-Sales Service

• Device Maintenance:

- Wipe the device with a dry soft cloth and avoid using corrosive cleaners.
- Store the device in a cool, dry environment.

• Common Problems: .

Issue	Solution
Unable to turn on device	Make sure the battery is sufficiently charged, or connect to a power adapter.
Connection failure	Ensure the device is in pairing mode and being used within 10 meters.
Firmware upgrade failure	Check that the network settings are correct and the battery is above 25%.
Unable to import media	Make sure the device is connected to Wi-Fi.
Unable to start recording	Ensure the privacy switch is turned off.
