

# User Guide

Product : POWER BANK

- ① Power Indicator
- ② Type-C input /Output
- ③ Switch
- ④ Wireless Output 15W

Model:PB418W

Capacity:3.85V 5000mAh

Type-C Input:5V 3A ,9V 2A

Type-C Output:5V 3A ,9V 2.22A, 12V 1.67A

Wireless Output:15W max ,Compatible 10w/7w/5w

Size:102mm\*66mm\*9.5mm

## Notice:

1. If the device cannot be charged when using , please check whether the cable connection is normal and firm or whether the charging interface accessories are suitable.
2. Due to conversion rate, capacity of the power bank does not equal to the total power when it charges other devices.
3. The power bank is compatible with most mobile phones, but it might not fit for all phones, this situation is beyond the scope of replacement and warranty.

## Safety Information

Product is made from high quality Li-ion Polymer battery cells, please be assured of the best quality usage.

- 1.Do not hit, disassemble, pierce, or expose to fire, high temperature environments or any liquids.
- 2.If you find a bulge or other abnormal phenomena, please stop using it.
- 3.This power bank is not intended for use by persons with low physical, perceptual or mental capacity (including children), or those lacking relevant experience and knowledge, unless supervised or instructed by a professional person. Children should be supervised to ensure that they do not use the device as a toy.

## FCC Warning Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

## FCC Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1)This device may not cause harmful interference, and
- (2)This device must accept any interference received, including interference that may cause undesired operation.
