16	airbags off	34	Audio volume up
17	Turn on arm airbags	35	Audio volume down
18	turn on shoulder airbags		

IMPORTANT Reminder:

Due to the sensitivity of the voice function, when using the chair, the chair might respond randomly if you are watching TV or talk with someone. This is NOT a defective issue. Please turn off the power supply of the entire massage chair. thank you.

Mode 3: Neck

Perfect for anyone who needs relief in the neck and shoulder areas. This program uses a combination of kneading, tapping, and lifting motions to target muscle relaxation and recovery, especially for those who work long hours at a desk or engage in physical activities.

Mode 4: Thai

A full-body stretch program designed to promote circulation and muscle relaxation. This mode features two types of stretching: overall body stretch and segmented stretch. It's ideal for post-workout recovery or anyone who spends long hours sitting. (Not recommended for pregnant women or elderly individuals.)

Mode 5: Back

This program focuses on massaging the lower back and hips, using concentrated, gentle pressure and a slow-fast rhythm to effectively relax and relieve tension in these areas.

Mode 6: Strong

A full-body massage with a rhythmic, flowing motion, enhanced by airbag compression for a gentle "wave-like" sensation. This program is designed to help you relax and de-stress, especially when paired with calming background music.

Mode 7: Elder

This program is specifically designed with a gentle and slow rhythm, using soft airbag compression for a soothing experience. It's perfect for first-time users or individuals who prefer a light, easy massage.

Mode 8: Queen

A more invigorating mode with quick kneading and segmented neck traction. It's designed to offer a deeper and more tailored massage experience, perfect for those seeking a more energizing and rejuvenating massage.

Mode 9: Swing

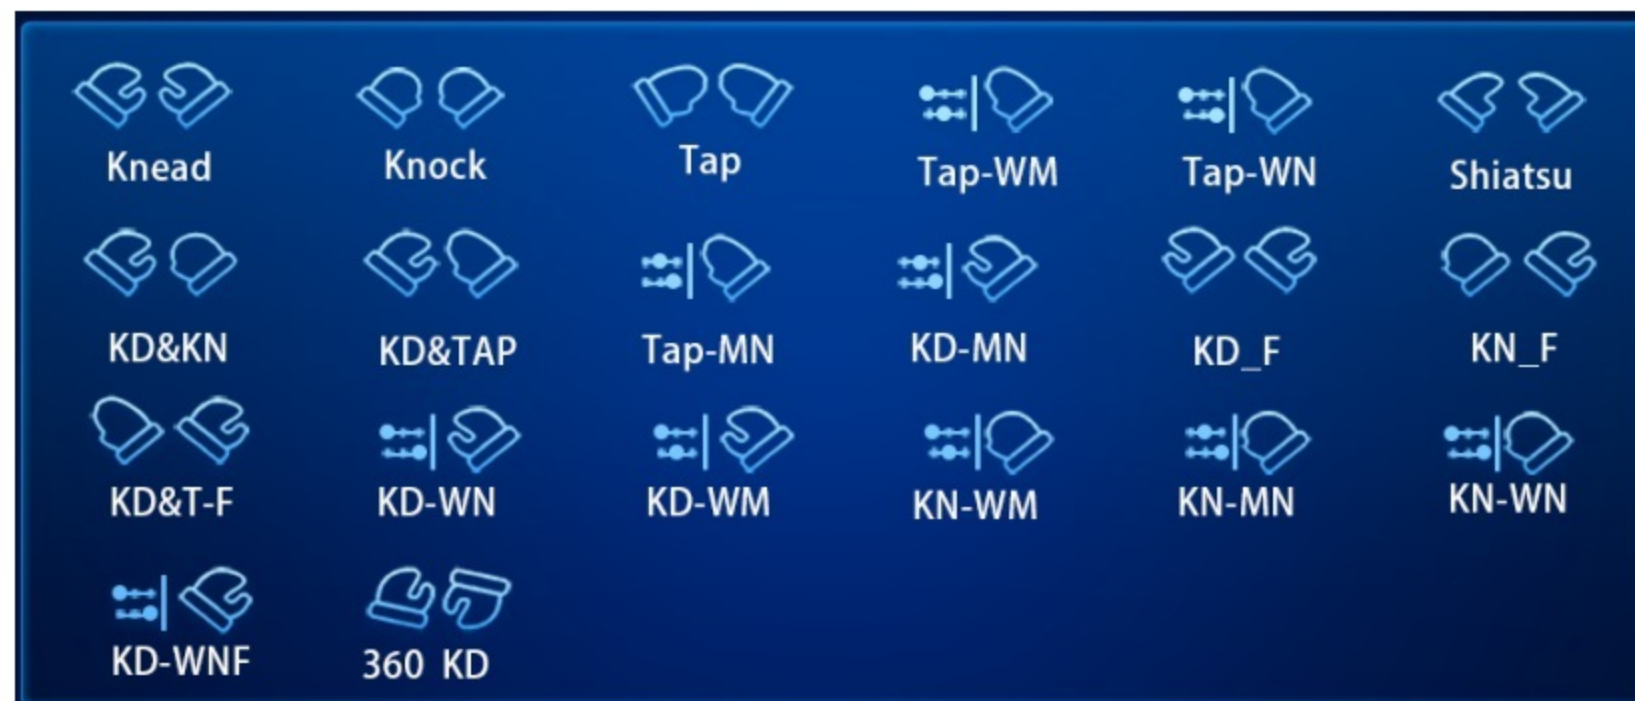

This special program offers continuous rocking motions combined with airbag compression, creating a gentle, cradling effect. It's a great option for anyone looking for a more dynamic and soothing massage experience.

Mode 10: Motion

Designed to relax muscles after physical activity, this program combines fast and slow massage techniques to relieve muscle tension and improve circulation. The program includes two angle adjustments for enhanced blood flow, especially beneficial for the lower body.

Manual

More manual modes allow user to adjust different massage methods

FCC Statement

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The device has evaluated to meet general RF exposure requirement. The device can be used be in portable exposure without restriction.
