

1. Plug in 5VDC power supply

2. Go to WLAN Settings and find SmartWeather-*****, click “CONNECT” to enter the product link.

3. Enter product password “12345678”, click “CONNECT” to enter the WiFi link.

4. Enter the WiFi name and password, click Submit to link the product to 2.4G WiFi.

5. Make other personalized settings.

Note:

The product only supports 2.4G WiFi network; about 30 meters away from the network node without obstruction; after the product link, you can enter 192.168.4.1 in the browser to enter the WIFI link; as the product consumes about 0.2A when it is high lighted, the battery is only as a back-up, and the screen will go out when only using the battery power supply, and will light up for 5 seconds only when touching the button.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
