

PRODUCT PARAMETER

Bluetooth version: V5.4	Charging time: 1h
Transmission distance: 10m	Music time: 4.5h
Charging port: Type-C	Talk time: 4.5h
Bluetooth frequency: 2.402-2.480GHZ	Headphone battery capacity: 30mAh
Rated input: 5V=300mA	Battery capacity: 500mAh

PRODUCT DIAGRAM

The diagram illustrates the components of the TWS earbuds and their charging case. It includes labels for the left and right earbuds, their touch areas, the charging case, the smart screen, the reset key, and the Type-C charging port.

- Left earphone
- Right earphone
- Left ear touch area
- Right ear touch area
- Touch smart screen
- Charging case
- Reset key (back)
- Type-c charging port

OPENING AND CONNECTING

The diagram illustrates the process of opening a Bluetooth device and connecting it to a smartphone and a laptop. On the left, a Bluetooth device is shown with its lid open, revealing internal components. A red arrow points from the device to a smartphone and a laptop, both of which have Bluetooth symbols on their screens. The smartphone screen also displays a notification for 'Bluetooth' and a list of nearby devices. The laptop screen shows a 'Bluetooth' window with a list of devices. A Bluetooth symbol is located in the top right corner of the slide.

CERTIFICATE OF CONFORMITY

Product Number: _____

Production Date: March 1994

Inspector: _____

A red circular stamp is placed over the 'Production Date' and 'Inspector' fields. The stamp contains the text 'QC PASS 01' in a stylized font, with 'QC' at the top, 'PASS' in the middle, and '01' at the bottom. Two diagonal lines cross the circle from the top-left to the bottom-right and from the top-right to the bottom-left.

Product Number: _____
Production Date: March 24, 2024
Inspector: _____

FCC Statement

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Radiation Exposure Statement

This device complies with Part 15 of the FCC radiation exposure limits set forth for an uncontrolled environment. The device can be used in portable operation condition without restriction.
