Accessories

Battery

A11 includes an internal battery. You can track your battery status with the icon showed on the top right of the screen.

10W Fast charging

Warning

- Use only LAGENIO -approved batteries specifically designed for your phone.
- Incompatible batteries can cause serious injuries or damage to your phone.
- Never place batteries or phones on or in heating devices such as microwave ovens, stoves, or radiators. Batteries may explode when overheated.

① How to insert the card

To make sure your device is able to make calls, insert the SIM card in the following order.

- Insert and press the ejector pin into the hole in the side to pop the card tray.

- With the device facing up, insert the cardholder into the device in the direction of the arrow.

② How to boot

Non-removable battery

Press the power button for 3-5 seconds to boot

③ How to send SMS, MMS

SMS

- Open the SMS app
- Select New Information
- Enter a phone number or browse your contacts
- Select Edit Information and enter your text
- Send ➤

MMS-video

- When writing a text message
- Select images, videos, or other files you want to add, even you can take a new picture or video right away
- Selecting or sending ➤

④ Language switching settings

- Main menu—settings system—language and input method
Language and input method—language—language adding
- Select the language you need, the system will automatically
- jump back to the language interface
- Select the icon after the language bar and drag it to the first one

⑤ SAR

- The maximum electromagnetic Specific Absorption Rate (SAR) of this product is $\leq 2.0\text{W/kg}$
- In line with the requirements of the national standard

EN62209-1:2016; EN 62209-2:2010; EN 62479:2010;
EN 50360:2017; EN 50566:2017;

⑥ Safety - In order to ensure safety during use of the product , you must strictly abide by the following rules

- The device should be at least 15cm away from any medical implant or rhythm adjuster and never put the device in your coat pocket .
- Do not expose the device and other batteries together with high temperatures or heat-generating equipment such as sunlight, heaters, microwave ovens, ovens, or water heaters. Overheating of the battery can cause an explosion.
- When charging is complete or not charging, disconnect the charger from the device and unplug the charger from the outlet.
- If the device is equipped with a non-removable battery, do not replace the battery by yourself to avoid damaging the battery or the device.
- Use of an unapproved or incompatible power source, charger, or battery may cause fire, explosion, or other hazards.
- Do not disassemble or reset the battery, insert other objects, immerse in water or other liquids to avoid battery leakage, overheating, fire or explosion.
- Do not drop, crush, scratch, or puncture the battery to avoid subjecting the battery to excessive external pressure, Which may result in internal short-circuit and overheating of the battery.
- The company does not bear responsibility for accidents caused by non-standard related charging equipment.

If you want to read the full CE compliance, please contact info@lagenio.com to get it.

7 Maintenance

- Thoroughly understand the maintenance of this device to use the device more safely and effectively, and extend the service life of the device as much as possible.
- Please follow the instructions in the manual to open the device, disassemble the accessories, and do not try other
- Please avoid dropping, knocking, or shaking your device. Rough handling of the device can cause the screen to rupture, damaging the internal circuit board and the delicate structure.
- Do not use chemical solvents or detergents to clean your device. Wipe the device case with a soft cotton cloth dampened with water and mild soap.
- Clean the lens with a clean, dry, soft cloth. (Example: camera lens) and display.
- When the charger is not in use, please unplug it from the power outlet. Do not connect the battery that has been fully charged to the charger for a long time, as overcharging will shorten the battery life.

FCC Statement

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

ISED Statement:

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions::

- (1) This device may not cause interference; and
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

Cet appareil est conforme aux RSS sans licence d'Industrie Canada. L'exploitation est soumise aux deux conditions suivantes :

- (1) Ce dispositif ne peut causer d'interférences ; et
- (2) Ce dispositif doit accepter toute interférence , y compris les interférences qui peuvent causer un mauvais fonctionnement de l'appareil.

RF Exposure Statement

SAR tests are conducted using standard operating positions according standards with the device transmitting at its highest certified power level in all tested frequency bands, although the SAR is determined at the highest certified power level, the actual SAR level of the device while operating can be well below the maximum value.

This model product has been tested and meets the RF exposure guidelines with the test distance 0mm for head and 10mm for body worn. The highest SAR_{1g} value is 0.770 W/Kg for head and 0.711 W/Kg for body worn. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with RF exposure requirements, and should be avoided

Déclaration d'exposition aux RF

Les tests SAR sont effectués en utilisant des positions de fonctionnement standard conformément aux normes avec l'appareil transmettant à son niveau de puissance certifié le plus élevé dans toutes les bandes de fréquences testées, bien que le SAR soit déterminé au niveau de puissance certifié le plus élevé, le niveau SAR réel de l'appareil pendant le fonctionnement peut être bien inférieur à la valeur maximale.

Ce modèle de produit a été testé et répond aux directives d'exposition RF avec une distance de test de 0 mm pour la tête et de 10 mm pour le corps. La valeur SAR_{1g} la plus élevée est de 0,770 W/kg pour la tête et de 0,711 W/kg pour le corps.

L'utilisation d'attaches de ceinture, d'étuis et d'accessoires semblables ne doit pas contenir de composants métalliques dans son assemblage. L'utilisation d'accessoires qui ne répondent pas à ces exigences pourrait ne pas être conforme aux exigences d'exposition aux RF et devrait être évitée.
