Press and Hold the "▽" Button: Enables video fast-forward (speed-up) playback.

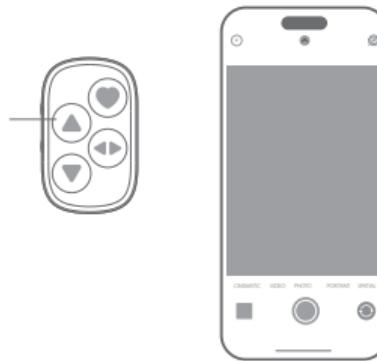

Single Click the "♡" Button: Play/pause the video.
Double Click the "♡" Button: Like the video.

Open your phone's native camera app, then double click the "△" button to take a photo.

Take a photo
(double click)

*Without any operation for 30 minutes, then will be automatically shut down.

Charging Instructions:

1.How to Charge the Ring Remote:

Place the ring remote on the charging contacts inside the charging case. During charging, the red light on the ring remote will stay on, indicating that it is charging.

2.How to Charge the Charging Case:

Use a USB-C cable to charge the case. The red light will remain on during charging. When the indicator light turns green, it means charging is complete.

3.Low Battery Warning:

When the ring remote is placed in the charging case for charging, and the case's battery level is below 10%, the indicator light on the charging case will flash red five times to signal low battery. Please charge the case promptly to avoid malfunction.

Caution And Safety Information:

- It is recommended to charge the ring remote and charging case once a month to extend the battery life if it has not been used for a long time.
- This product is not waterproof. Please do not use it in extremely cold, high temperature, or high humidity environments.
- Do not drop, crush or throw the product.

FCC Caution.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

* RF warning for Portable device:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
