USERS' MANUAL

LAPTOP

Users' Manual

This section introduces the computer hardware features to give you the basic information you will need to start using the computer.

Note: Your Computer might look different from the illustrations in this topic.

Front View

Figure 1. Front view

1. LCD Display	2. Camera
3. Touch pad	4. Power on/off

1. LCD Display

A flat surface, as part of a computer, on which pictures or words are shown.

2. Camera

Use the camera to take pictures or hold a video conference.

3. Touch pad

Pointing, selecting, and dragging are all part of a single process that you can perform without moving your fingers from a typing position.

4. Power on/off

Press the power button to turn on the computer into sleep mode.

Right-side view

Figure 2. Right-side view

1. 3.5mm Audio in/out	2. USB Connector
-----------------------	------------------

1. 3.5mm Audio in/out

Connect headphones or a headset that has a 3.5mm(0.14inch), 4-pole plug to the audio connector to listen to the sound from the computer.

Notes:

- If you are using a headset with a function switch, for example, a headset for an iPhone mobile digital device, do not press this switch while using the headset. If you press the switch, the headset microphone will be disabled, and the integrated microphone on the computer will be enabled instead.

DANGER

To avoid the risk of electrical shock, do not connect the charger to the Audio jack.

2. USB Connector

The Universal Serial Bus (USB) connector is used for connecting USB-compatible devices, such as a USB printer or a digital camera.

Attention:When you attach a USB cable to the USB connector, ensure that the USB mark is facing upward. Otherwise the connector might be damaged.

1. USB connector	2. DC in
3. HDMI Type A	

1. USB connector

The Universal Serial Bus (USB) connector is used for connecting USB-compatible devices, such as a USB printer or a digital camera.

Attention: When you attach a USB cable to the USB connector, ensure that the USB mark is facing upward. Otherwise the connector might be damaged.

2. DC in (Power connector)

When the ac power adapter is connected to the ac power connector, the ac power adapter provides power to the computer and charges the battery.

3. HDMI Type A

(Remark: Specifically, please refer to the actual item.)

High-Definition Multimedia Interface (HDMI) connector is a digital audio and video interface that can connect a compatible digital audio device or video monitor, such as a DVD player or a high-definition digital television(HDTV).

Bottom view

Figure 4. Bottom view

1. Cooling system	2. Speakers
-------------------	-------------

1. Cooling system

The cooling system in a computer laptop typically consists of fans and heat sinks, sometimes including heat pipes or heat pipe coolers. Fans draw in surrounding air and expel it to maintain safe temperatures inside the computer.

Notes: Do not obstruct the cooling system's air vents, as this may lead to overheating. Ensure that the bottom and sides of the computer's cents remain clear of obstructions.

Status indicators

The status indicators show the current status of your computer.

Note: Your computer might have slight variations from the following illustrations.

2. Speakers

The audio signal played is converted into sound and output, allowing the user to hear a variety of sound effects.

Left-side view

1. Power indicator	2. Caps lock indicator
3. Number lock indicator	

1. Power indicator

The indicator shows the power on/off status.

2. Caps lock indicator

When the indicator is on, it indicates that Caps Lock mode is enabled. You can type all alphabetic characters (A-Z) in upper case directly.

3. Number lock indicator

When the indicator is on, it indicates that numeric keyboard is on, or else, the numeric keyboard is off.

Product Specification

Model No.	K156
LCD	15.6 inch 1920*1080 IPS
Processor	Intel® Core™ i7 7560U
GPU	Intel® Iris® Plus Graphics 640
RAM	DDR4 8GB/16GB/32GB
Storage	M.2 SATA3.0/NVME 256GB/512GB/1TB SSD
Camera	1.6MP with Privacy Shutter
Speaker	Stereo Speakers 8R/1W*2
WIFI	802.11a/b/g/n 2.4/5 GHz Dual-Band
Bluetooth	Bluetooth 2.1/EDR/5.0
I/O Ports	DC jack*1, USB*2, HDMI*1, Audio Jack*1,
Battery	Lithium-Ion Polymer Battery 12V 4000mAh 48Wh
OS	Windows 11 Pro
Charger	3.5mm*1.35mm round jack, DC 19V/3.42A

Remarks:

*The configuration is subject to the actual Product, and the instruction manual is for reference only. *

commodity Maintenance Record			
Date	The diagnosis	Fault handling	signature of repairman

30 days upon date of purchase, if there is function problem, we should offer the same item subject to goods and packing maintain perfect.

One year upon date of purchase, we will guarantee to keep the goods in repair (not including fittings).

Guarantee service is subject to normally using.

There is no warranty for any man-made damage (she II disassembly, hard disk replacement, system upgrade, abnormal use).

IMPORTANT NOTICE

To reduce the possibility of injuries or accidents of the computer, please be aware of the following mistakes.

- Do not obstruct the air vents for heat dissipation.
- Do not press or touch the display panel.
- Do not subject the display panel.
- Do not place on uneven or unstable work surface.
- Do not expose the computer to rain or moisture.
- Do not slam your laptop shut.
- Do not expose to direct sunlight.
- Do not use or store in extreme temperatures.
- Do not spray water or any other cleaning fluids directly on the display.
- Do not place the laptop near fire or other sources of heat.
- Do not tamper with the batteries. Keep them away from children.
- If you are traveling with your computer, remember to carry it in a hand luggage.

FCC Caution.

a、 § 15.19 Labeling requirements.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

b、 § 15.21 Changes or modification warning.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

c、 § 15.105 Information to the user.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

d、 Specific Absorption Rate (SAR) information:

This laptop meets the government's requirements for exposure to radio waves. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons regardless of age or health.

e、 FCC RF Exposure Information and Statement

The SAR limit of USA (FCC) is 1.6 W/kg averaged over one gram of tissue. Device types: laptop (FCC ID: 2BOOL-K156) has also been tested against this SAR limit. The highest SAR value reported under this standard during product certification for use on the body is 0.578W/kg. This device was tested for typical body-worn operations with the back of the handset kept 0mm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain a 0mm separation distance between the user's body and the back of the handset. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided.

Body-worn Operation

This device was tested for typical body-worn operations. To comply with RF exposure requirements, a minimum separation distance of 0mm must be maintained between the user's body and the handset, including the antenna. Third-party belt-clips, holsters, and similar accessories used by this device should not contain any metallic components. Body-worn accessories that do not meet these requirements may not comply with RF exposure requirements and should be avoided. Use only the supplied or an approved antenna.
