FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Information

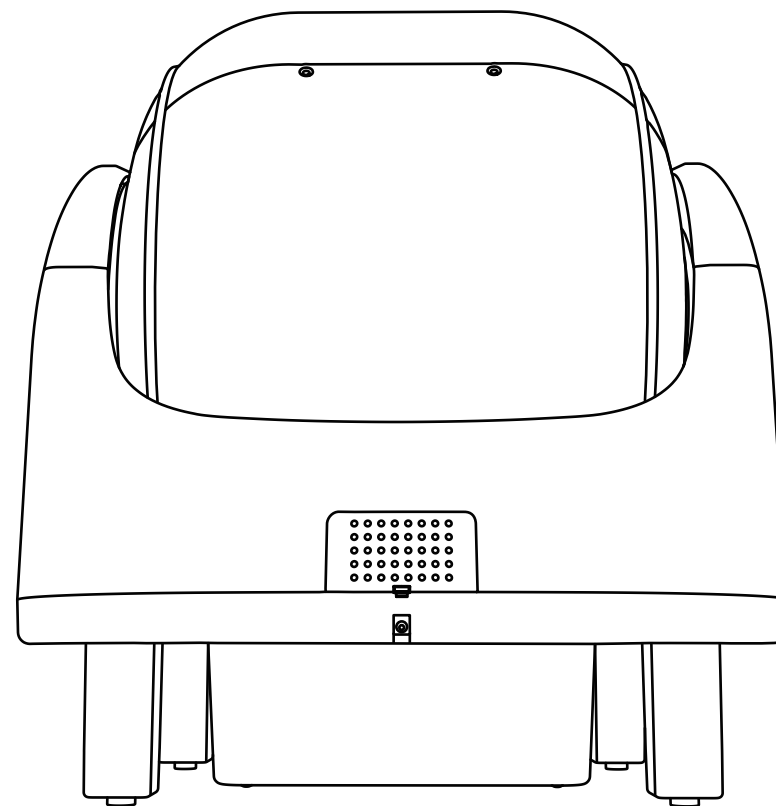

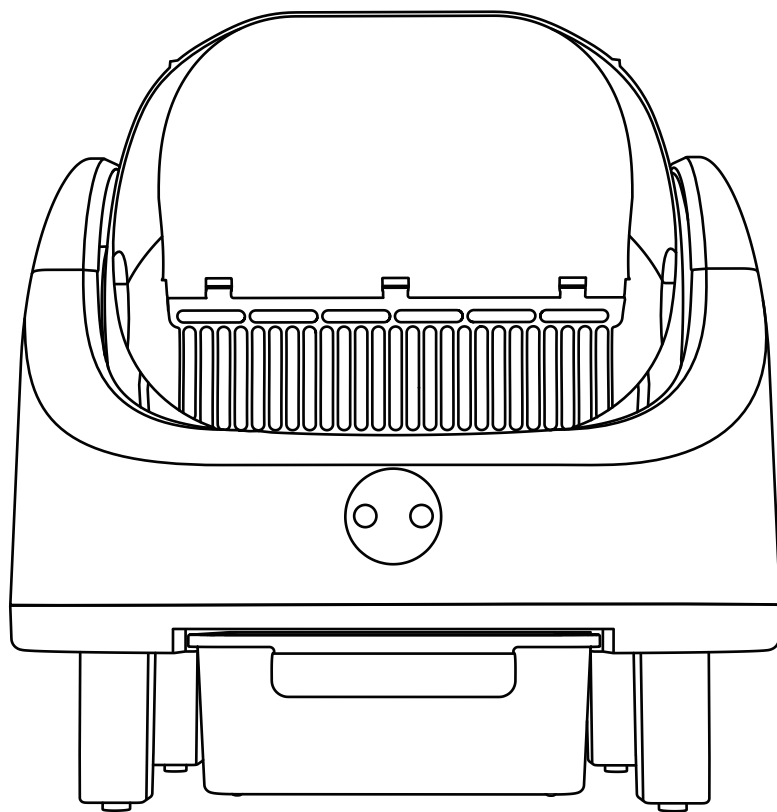

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

- **Yellow light on:** Indicates that the collecting bin is full and triggers the infrared anti-clip in the collecting bin.

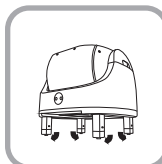

Installation instructions

Complete installation

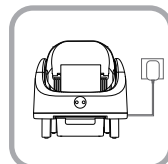

Installation and calibration of weighing sensors for weight

①. Take out the other accessories inside the drum and place the machine (as shown) on a hard, flat floor.

②. Place the machine on a hard, flat floor, rotate the four folded feet outward 90°, and install them vertically in the hole.

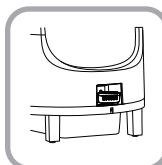

③. Connect to the power supply, connect to WIFI, place a known weight object (greater than 500g) in the machine, remove it after 10s, and check if the displayed weight is accurate.

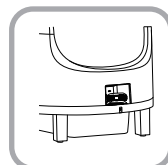

Aromatherapy box installation

①. Find the cover plate on the side and press the two clasps on the cover plate, and then remove the cover plate.

②. Put the aromatherapy box with the protective film removed in the product card slot and push it to the bottom.

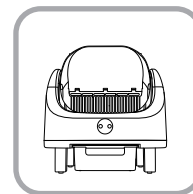

③. Reset the cover plate of the product.

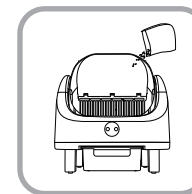

Attention!

Before installation, please carefully read the instruction manual and check the accompanying accessories.
For cats under 3.3 lb, please use manual mode. In manual mode, you can use the app "Clean Now" to make the machine work or press the cleaning button to make the machine clean.

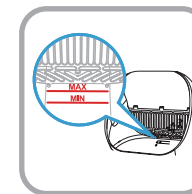

Add cat litter

①. Unplug the power and the machine stops running

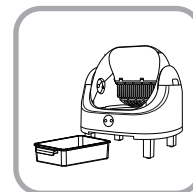

②. Pour appropriate amount of cat litter

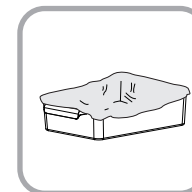

③. Do not pour more cat litter than the height of the mat in the bucket

Install bin garbage bags

①. Pull out the collection bin

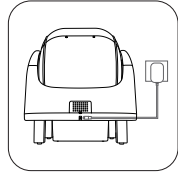

②. The garbage bag is first set to the rear two corners, and then pulled back and stuck on the front two clasps, and then smooth, reset the collection bin

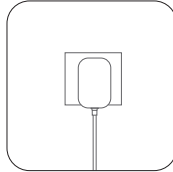

- ①. The weight of cat litter should not exceed 5KG.
- ②. The amount of cat litter should not exceed the height of the mat in the bucket. Please unplug the power before adding cat litter each time, and plug in the power after adding cat litter. Or short press the cleaning button once after each cat litter addition to reset the gravity.
- ③. Suggest that the diameter of cat litter should not exceed 1.5MM.

Instructions for use

Operating instruction | Power on

Insert the power adapter port into the rear hole of the product

Plug the strip end of the power adapter into the electrical outlet

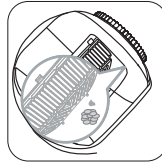

Common Causes of Sticking

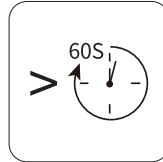

①.Tofu litter may not clump effectively, leading to residue buildup.Recommendation: Use mineral-based litter for better clumping.

②.Urine in areas with insufficient litter coverage (e.g., edges or elevated spots). Recommendation: Ensure litter is evenly distributed and covers the tray.

③.Excessively wet clumps due to high urine moisture. Recommendation: Monitor your cat's hydration or consult a vet if consistently watery.

④.Cleaning cycle starts too quickly after use. Recommendation: Set the delay to >60 seconds to allow clumps to solidify.

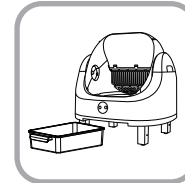

Daily maintenance

Note! Maintenance work is not within the scope of maintenance.

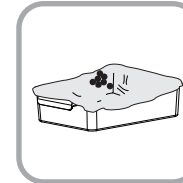

- A dedicated aromatherapy box should be used to ensure the deodorizing effect.
- Matching special garbage bags should be used to ensure the cleaning effect of products.

Replacement of toilet bowl and aromatherapy box

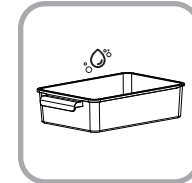

Clean the collection bin

①. Pull out the collection bin

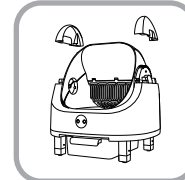

②. Take out the garbage bag and tighten the handle to seal it

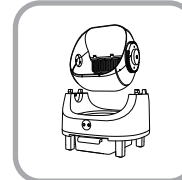

③. The collection bin can be washed dry with clean water, and then reset after loading a new garbage bag

Rotary cleaning

①. Extract the upper cover from the side handle hole of the upper cover upward

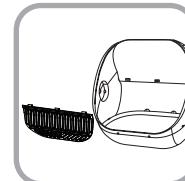

②. Put forward the cylinder

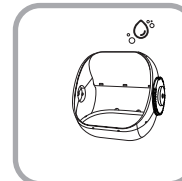

③. Wipe the inside with a dry towel

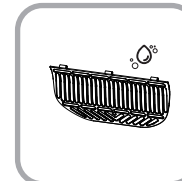

④. Lift from the root of the screen to make the screen fall off from the buckle

⑤. Take out the screen

⑥. The rotary cylinder is cleaned directly with water

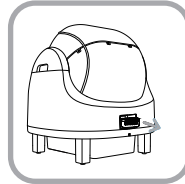

⑦. Screen cleaning alone, dry after reset

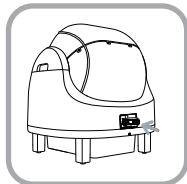

Aromatherapy box replacement

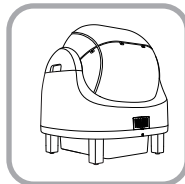

①. Power off, find the back cover on the back and take it off

②. Pinch the bottom of the aromatherapy box and take it off

③. Put the good aromatherapy box at the product card slot and push it to the bottom.

④. Reset the rear cover of the product

- When moving the product, handle it gently and avoid dragging it.
- Do not place other items on the top of the product, which may affect the normal work of the product.
- The product can only be used on the special accessories provided by our company.
- Cats smaller than 3.3lb, please enable manual mode.

Precautions and Troubleshooting Causes for networking failure:

- To ensure smooth networking of the product, please ensure that the whole machine is installed in a place with strong wireless network.
- This equipment contains a radio transmitting module with model approval code CMITID:2020DP6462 and device model :WBR3.

Service guide

Product parameter

Due to product improvement, the following parameters are subject to change, mainly the product nameplate
The recommended ambient temperature is 4~40 degrees Celsius.

Model number	
Rated voltage	12V ===
Rated power	9W
Product size	540*500*572mm
Product package size	560*515*420mm
Litter Container Capacity	8L

Fault self-test

Note!

The following is the common judgment and inspection, if simple treatment cannot be eliminated, please send to the maintenance network or Call the customer service hotline for consultation. Please do not disassemble and repair by yourself to avoid danger or Cause damage to the product.

Problem	Cause	Treatment method
Networking failure	The product is not energized	Electrify the product
	No network exists in the place where the product is located	Check whether there is a network
	The phone did not turn on Bluetooth	Turn on Bluetooth
	WiFi is not a 2.4G signal	WiFi is adjusted to 2.4G signal Press and hold the Wi-Fi button to refresh the network
The product is energized, and the drum does not rotate	Product accessories are not installed in place; The required adapter is not used	Check and reinstall product accessories; Check that the adapter power matches that of the machine nameplate
The cleaning button turns yellow and the light flashes	The load cell is triggered; Current anti-clipping is triggered; The collecting bin is not installed properly	Check the weight of objects in the drum; Check the machine and drum for foreign objects; Reinstall the collecting bin
Product cleaning button yellow light on	Infrared anti-clip trigger of the collecting bin, APP pop-up prompts "the collecting bin is full"	Clearing the collecting bin; Check the collecting bin sensor for foreign objects

10 The "environmental protection life" of this product under normal conditions described in the manual is 10 years, which is quoted from the "Guidance Opinions on the Environmental Protection Life of Household Appliances" of China Household Electrical Appliances Association

Skills:

- 1. The machine is placed on a flat hard ground, and there are four black parts on the bottom that should be in contact with the same plane.
- 2. Make sure the cat weighs more than 1kg, otherwise it may cause the cat to be injured.
