

SMART WATCH

Quick Guide

Connect to phone

(CO-FIT APP)

You need to download and install the CO-FIT PRO app lication on your phone. The CO-FIT app supports iOS 11.0 and Android 5.0.

- 1.Turn on Bluetooth on your phone, open the app to register and log in to the homepage.
- 2.Pair the watch with the app. When pairing,ensure that the watch and app can communicate with each other(synchronize data); Open APP>Devices>Bind the device>Select the appeopriate Bluetooth model.
- 3.In the searched binding list,Select the Bluetooth name that corresponds to the strongest signal and click match. the Bluetooth icon on the watch is blue,indicating that you are connected to Bluetooth 5.0.
- 4.Bluetooth 3.0 connection method;
IPhone users support Bluetooth 5.0+3.0 dual Bluetooth one click link (follow the system prompt box when matching)
1.The Android user system will pop up a Bluetooth pairing request, check the prompt permission and click "pairing" to complete Bluetooth 5.0+3.0 pairing;
2. If there is no Bluetooth pairing request popped up on the Android user system, you need to remind the Bluetooth pairing prompt. Click "Debind" on the "Call Service Pairing Options" and then follow the interface operation prompts to finish Connect to Bluetooth, and subsequent connection to the mobile phone will generate a memory of the watch 3.0 Bluetooth, thus realizing dual Bluetooth one-click Connect (If you are not automatically connected to Bluetooth 3.0, please manually search for the Bluetooth name corresponding to your watch on your phoneConnect.

01

FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
