

KC-002

Output power	3W THD=10%
Frequency response	80Hz-20KHz
Signal to noise ratio	≥85dB
Distortion degree	<0.5%
Bluetooth	V5.3
Charging input	DC5V/1A
Interface type	type-c
Rated power	3W
Battery capacity	3.7V 800mAh

①

Operating instructions

Power on: Press and hold the  /  button for 3s; the blue light flashes quickly

Power off: Press and hold the  /  button for 3s; the blue light goes out

Warnings and Tips:

- To reduce the risk of fire or electric shock, do not expose this product to moisture or rain.
- Do not place this product under open flames.
- Use a safety charger for charging.
- Do not charge for a long time when not in use.
- After long-term storage, you may need to charge and discharge several times to obtain the best performance.
- Do not use this product to hit things.
- Do not approach heating devices.
- Do not disassemble, repair or modify it by yourself.
- Please properly dispose of waste packaging, batteries, and old electronic product parts.
- This product uses a rechargeable external battery, and the battery cover can be removed and installed at will.
- Even if you do not use this product, please charge it once a month to extend the battery life.

FCC Warning:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

④

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
