

OFFROOM

*Charging speeds may vary depending on phone model, phone case, phone temperature, phone battery state of charge and other factors.

*Hold strength of 16N as measured with standard Apple MagSafe case.
Hold strength may change with third party cases.

WARNINGS

- Do not mount accessories in front of or near the path of airbag deployment.
- Check vehicle compatibility before install to avoid damage to the vehicle mount point.
- Designed to work with OEM dashboard only, not compatible with aftermarket modifications.
- Do not use with 3rd party extension arms. Adhere to our phone weight limits.
- Mount electronics away from airflow to prevent heat damage.

Self-installation instructions and advice are provided for your convenience. It is your responsibility to determine if you have the knowledge, skills, and physical ability required to properly perform an installation. Offroom shall have no liability for damage or injury resulting from the installation or use of any Offroom or third party products. It is your responsibility to ensure that all products are installed in adherence with local laws and regulations and in such a manner as to not cause a vehicle to be operated safely and without distraction. Offroom product warranties do not cover the installation, removal or re-installation of any product.

SAFETY

- Connect the power supply to a 9V/2.22A, 5V/3A, or USB-C port to ensure proper operation.
- Only use certified USB-C chargers to maintain safety and prevent damage to the device.
- Avoid exposing the device to moisture or high heat, as this may cause malfunction or pose a safety hazard.
- Do not use damaged cables or power supplies, as they may result in electrical failure or injury.
- Be aware that charging may cause the holder to become warm; this is normal but should be monitored for excessive heat.

CHARGING

This device supports Qi2-certified wireless charging for reliable and efficient performance, with up to 15W wireless charging, depending on the capabilities of both the charging device and the power adapter used. The wireless charging power transmission rate is regulated by the receiving device and may be influenced by several factors, including proprietary charging protocols, ambient temperature, electrical current, the battery's charge level, and the age of the device being charged.

POWER SPECIFICATIONS

This device operates on [insert frequency] at up to 15W during normal use, with a power supply of 9V/2.22A or a 5V/3A.

ISED COMPLIANCE STATEMENT

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

1. This device may not cause interference.
2. This device must accept any interference, including interference that may cause undesired operation.

This equipment should be installed and operated with a minimum distance of 10 cm between the radiator and your body.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

1. l'appareil ne doit pas produire de brouillage, et
2. l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si

le brouillage est susceptible d'en compromettre le fonctionnement.

Cet équipement doit être installé et utilisé avec une distance minimale de 10 cm entre le radiateur et votre corps.

CE COMPLIANCE DECLARATION

This device complies with the essential requirements and other relevant provisions of the European Union (EU) directives, including the Radio Equipment Directive (RED) 2014/53/EU, the Electromagnetic Compatibility (EMC) Directive 2014/30/EU, and the Low Voltage Directive (LVD) 2014/35/EU, as applicable. This device has been assessed and meets the required standards for safety, electromagnetic compatibility, and environmental protection in accordance with the applicable EU regulations. It is marked with the CE logo, indicating that it conforms to all relevant European Union legislation.

FCC COMPLIANCE STATEMENT

This device complies with Part 15 of the Federal Communications Commission (FCC) Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the manufacturer could void the user's authority to operate the equipment. This device has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This device generates, uses, and can radiate radio frequency energy, and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

UKCA COMPLIANCE DECLARATION

This device complies with the essential requirements of the relevant UK legislation, including the Electromagnetic Compatibility (EMC) Regulations 2016, the Radio Equipment Regulations 2017, and the Electrical Equipment (Safety) Regulations 2016, as applicable. This device has been assessed and meets the required standards for safety, electromagnetic compatibility, and environmental protection in accordance with the applicable UK regulations. It is marked with the UKCA logo, indicating that it conforms to the relevant UK legal requirements.

MODEL 990-1001

DISPOSAL

To reduce the environmental impact of waste, this product should not be disposed of with regular household waste. Please follow local regulations and dispose of the device in an environmentally responsible manner.

RECYCLING

This product is eligible for recycling. Please take it to an appropriate collection point for the recycling of electrical and electronic equipment. Many countries offer designated recycling programs for electronic waste (e-waste), and proper disposal helps prevent harmful substances from contaminating the environment.

FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Note: The Grantee is not responsible for any changes or modifications not expressly approved by the party responsible for compliance; such modifications could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement.

To maintain compliance with FCC's RF exposure guidelines, the distance must be at least 20 cm between the radiator and your body, and fully supported by the operating and installation configurations of the transmitter and its antenna(s).

IC Caution:

RSS-Gen Issue 5 "A" RSS-Gen numéro 5

- English:

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

(1) This device may not cause interference.

(2) This device must accept any interference, including interference that may cause undesired operation of the device.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

RF exposure statement:

The equipment complies with IC Radiation exposure limit set forth for uncontrolled environment. This equipment should be installed and operated with minimum distance 10cm between the radiator and your body.

- French:

Cet appareil contient des émetteurs / récepteurs exempts de licence conformes aux RSS (RSS) d'Innovation, Sciences et Développement économique Canada. Le fonctionnement est soumis aux deux conditions suivantes:

(1) Cet appareil ne doit pas causer d'interférences.

(2) Cet appareil doit accepter toutes les interférences, y compris celles susceptibles de provoquer un fonctionnement indésirable de l'appareil.

Tout changement ou modification non expressément approuvé par la partie responsable de la conformité pourrait annuler l'autorité de l'utilisateur à utiliser l'équipement.

Déclaration d'exposition RF:

L'équipement est conforme à la limite d'exposition aux radiations de la IC établie pour un environnement non contrôlé. Cet équipement doit être installé et utilisé avec une distance minimale de 10 cm entre le radiateur et votre corps.
