Instruction manual

#### Charging bin function introduction

Charging bay indicator light	
Bin charging	The charging bay's red light is blinking
The charging bay is fully charged	The charging bay is full, the red light keeps on
Charging case cover (discharge to charge headphones)	The charging bay has a green light

#### Headset function description

Headphone indicator	
Earphone on	The red and blue lights blinking alternately cause the start of pairing.
The left and right ears are paired	After the pairing is successful, the red and blue light of the main engine flashes at the same time (the primary and secondary years are random)
The headphone connection is successful	The main and secondary indicators are off
Earphone charging	The headset's red light keeps on
Headphones fully charged	All headphone lights are off

#### Connection Guide

**Open :**  
Open the cover and take out the headset auto power on, auto pairing. The headset automatically enters the pairing state after powering on (standby state with the cell phone), the main ear light flashes.

**Shut off :**  
Headset automatically shuts off when placed in the charging compartment.

**By the right :**

1. The headset enters the Bluetooth mode. The mobile phone search Bluetooth pairing name "I3", click the connection.
2. The headset is back to the last device by default.

**Bluetooth disconnection:**

1. Manually turn off the Bluetooth end of the phone, and the headset enters the Bluetooth pairing mode.
2. After the headset and the device are over-distance, Bluetooth is disconnected. Back to the effective distance range within 4 minutes, Bluetooth can return normally.
3. Bluetooth will automatically shutdown after 5 minutes of disconnection.

#### Wear steps

① Get out of the headset

② Gently hold the headphones and clamp the ears

③ Complete

#### The operation of the headset touch zone

Left ear "L"	
Music mode	
Play/suspension	Double click
Next song	Three blows
Call mode	
Answer/hang up	Double click
Refuse to call	Press 2s
General mode	
Voice assistant	Press 2s

Right ear "R"	
Music mode	
Play/suspension	Double click
Last song	Three blows
Call mode	
Answer/hang up	Double click
Refuse to call	Press 2s
General mode	
Voice assistant	Press 2s

#### Product parameters

**Basic parameters of charging bin**

Input voltage : DCSV  
USB output interface : Type-C Port  
Battery capacity : 300mAh/3.7V  
Charging time : <2h  
Charging current : 250mA

**Earphone basic parameters**

Bluetooth name : I3  
Effective distance : ≥10m(无障碍)  
Bluetooth version : Bluetooth 5.3  
Charging current : 30mA  
Charging time : <2h  
Battery capacity : 35mAh/3.7V

#### Failure exclusion

**Unable to connect the problem**

1. View whether the status of the headset indicator has been connected to other devices, or is connected by other devices,  
2. Clear other Bluetooth devices, turn off the Bluetooth and then search.

**Sound problem**

Low sound: Check whether to wear correctly, adjust the volume output appropriately.  
Different mobile phone models and different music software have different Bluetooth transmission power, so the volume output size will be different.

**Headphone charging problem:**

Check whether the charging position of the headset and the charging position of the warehouse have foreign bodies.  
It takes a long time without using the loss for a long time to be full of normal phenomenon.

**Charging warehouse charging problem:**

Check whether the charging indicator is normal  
Check whether the charging cable is inserted in place  
Check whether the charging head is 5V security rules

#### Note

**Storage and maintenance**

Before the headset is put in the charging box, make sure that the headset is dry, and keep the charging port dry before charging. Please use the power adapter approved by relevant departments and meet the requirements of local regulatory requirements (Such as UL, CSA, VDE, CCC), it is not recommended to use a higher voltage power supply to charge the headset. It may take longer to charge the charging box with a third-party charging cable.

**Instructions for wearing**

A few people will have a special reaction to specific materials, when exposed to specific environments, or with soap, sweat, and ultraviolet rays. When products or lotion, such as potential irritating substances on the skin and long-term contact with other substances, may cause skin allergies reaction. To reduce the risk of skin stimulation, do not wear the product on the body where the skin is injured. If your skin appears red, swollen, itchy or any other stimulus reactions, please stop wearing immediately, And consult the doctor!

**Heating damage**

Listening to music at high sound may damage your hearing, and the sound may be distorted.

**Battery use**

Replacement with a battery pack of error models may fail the safety protection. The treatment of the battery pack into a fire or heating furnace, or a mechanical squeezing or cutting of the battery pack may cause explosion.  
Placing the battery pack in a very high temperature environment may cause explosion or leakage of flammable liquid or gas.  
The battery pack is extremely low pressure, which may cause explosion or leakage of flammable liquid or gas. If severe bulging, do not continue to use it!

#### Instructions for charging security

Before the headset is put in the charging box, make sure that the headset is dry, and keep the charging port dry before charging. Please use the power adapter approved by relevant departments and meet the requirements of local regulatory requirements (Such as UL, CSA, VDE, CCC), it is not recommended to use a higher voltage power supply to charge the headset. It may take longer to charge the charging box with a third-party charging cable.

#### Instructions for wearing

#### Electromagnetic interference tips

There are places where wireless equipment is prohibited or should not be used (for example, maybe the airport in your area, Medical places, etc.), do not use this product, otherwise it will interfere with other electronic equipment or cause other dangers. Some electronic equipment may fail due to the radio interference of this product (such as, some automotive electronic equipment). Please contact the electronic equipment manufacturer for details.

#### Warranty service

Dear users, thank you very much for using our products. In order to effectively protect your rights and interests, it is clear that the distribution agents and the company should undertake the maintenance, replacement and return of products (hereinafter referred to as "three guarantees") responsibilities and obligations, please read the matters:

1. The Product Warranty Card is the necessary proof for our company to provide free after-sales service within the warranty period.
2. According to the principle of "three guarantees", if there is a product quality problem, contact the distributor with the "Product warranty card", and the distributor will provide service to the customer, and our company will provide service support to the distributor.
3. The company promises that if any quality problem occurs within 7 days from the date of sale (subject to the date of valid bill, the same below), the customer can return the product now for replacement or repair; From the date of sale from 8 days to 15 days of quality problems, customers can choose to replace and repair; From the date of sale, Within one year quality problems, customers can free maintenance. The product will enjoy lifelong maintenance if quality problems occur after the warranty period (all after-sales service points only charge for components and materials). Please fill in the "Product Warranty Card".
4. The following circumstances do not enjoy the three-guarantee service:  
(1) Exceeding the term of three contracts;  
(2) Damage caused by failure to use, maintain and keep the product according to the instructions;  
(3) Damage caused by disassembly by the repairman who is not responsible for the three packages;  
(4) The content of the Product Warranty Card is inconsistent with the physical identification of the product or altered;  
(5) Damage caused by force majeure.

Production enterprise : Dongguan Quandianchen Intelligent Technology Co., Ltd.  
Production address : No. 221, No. 221, Donggang Avenue, Tangxia Town, Dongguan City  
Execution standard : GB 4943.5-2022  
Service hotline : 400 0355 962

CE RoHS Made in China

**Note:**  
The product battery is a built-in rechargeable battery. Do not disassemble and replace it by yourself.  
You should use the correct method to charge the device.  
Do not immerse the equipment near the fire source or being collected by the sun.  
The battery hearing will destroy the safety device and cause the battery to explode or burn.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

#### FCC Radiation Exposure statement

The device has been evaluatec to meel general RF exposure requirement. The device can be used in portable exposure condition without restriction.
