外接拓展功能使用指南
1. 连接拓展线的注意事项
数据线要求：必须使用USB Type-C 或Type-C to Lighting 数据线,以确保稳定的数据传输和供电。
错误示例：使用A to C线或非全功能Type-C线可能导致拓展线无法正常工作。
接口选择：必须将数据插入拓展坞的数据传输专用接口（通常标有"Data"或"USB 3.0/3.1"）。
避免错误连接：若误插到"充电专用端口"或"仅供电端口",VlogMate Mini手机摄取景屏将无法启动。

2. 常见问题排查
设备数据无响应：1.检查数据线是否为全功能Type-C线或Lighting线（支持数据传输和OTG功能）。
　　　　2.确认拓展坞的接口是否支持数据传输输（部分低价拓展坞可能仅有充电功能）。
自拍取景器无法启动：1. 重新插拔数据线,确保连接的是正确的数据传输端口。
　　　　2. 尝试更换另一条 C to C或C-lighting线,排除线材故障。

External Expansion Function User Guide
1.Precautions for Connecting the Expansion Dock
Cable Requirements: You must use a USB Type-C to Type-C or Type-C to Lightning cable to ensure stable data transfer and power supply:
Incorrect Example: Using an A-to-C cable or a non-full-featured Type-C cable may cause the expansion dock to malfunction.
Port Selection: Always connect the cable to the dedicated data transfer port on the expansion dock (usually labeled "Data" or "USB 3.0/3.1").
Avoid Incorrect Connections: The VlogMate Mini will fail to start if it is accidentally plugged into a "charging-only port" or "power-only port."

2.Troubleshooting Common Issues
Device Not Responding:
1.Check if the cable is a full-featured Type-C or Lightning cable (supporting both data transfer and OTG functionality).
2.Confirm whether the expansion dock' s port supports data transfer (some low-cost docks may only support charging functionality).
Selfie Viewer Fails to Activate:
1.Reconnect the cable to ensure it is plugged into the correct data transfer port.
2.Try using a different Type-C to Type-C or Type-C to Lightning cable to rule out cable faults.

Warranty Policy
If any non-human damage or performance failure occurs during the use of the product, you are entitled to the service commitment of "repair, return, and replacement" (referred to as the "Three Guarantees").

○：Indicates that the content of the hazardous substance in all homogeneous materials of the component is below the limit requirements specified in GB/T 26572-2011.
×：Indicates that the content of the hazardous substance in at least one homogeneous material of the component exceeds the limit requirements specified in GB/T 26572-2011, and there is currently no mature alternative solution in the industry that meets the environmental requirements of the EU RoHS Directive.

(10) The environmentally friendly use period of 10 years marked on this product refers to the safe period during which no harmful substance leakage occurs when the product is used under the conditions specified in the user manual.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.
This transmitter must not be co - located or operating in conjunction with any other antenna or transmitter.
