## Doodle Smart App Operating Instructions

## Feeder sharing device

- 1.Tap the  icon in the top right corner of your phone's feeder screen.
- 2.Click Share Device and choose one of the ways to share to others.
- Note: 1.The person being shared needs to download the APP and log in the account in advance.
- 2.If the sharing is not successful, please check if you have downloaded the right APP.

- 5.Click Done after adding successfully.
- 6.Click Feed The feeder automatically dispenses food.
- 7.Click Add Select time and date Save after the number of servings. Tap Again for multiple meal feeding.
- 8.Feeding record Check the daily feeding amount.

## Q&A Troubleshooting

Q:When the mobile app sends a feeding request, no food falls to the food tray.

A:1.The feeder carousel is rotating but no food is falling, please check if the food storage bucket is empty.

Q:In case the power cord is chewed off by the pet, will it hurt the pet?

A:2.The product equipment adopts 5V safe voltage, it will not hurt pets electrically.

Q:Why can't the main unit be rinsed with water directly?

A:3.There are precise electronic parts and circuit boards inside the mainframe, so if you need to clean it, you only need to wipe the mainframe with wet wipes after power off.

## Safety instructions and precautions

1. Please store this product in a cool and dry place, and do not use it for any other purpose except feeding.
2. Please do not drop anything other than dry pet food into the storage bin, otherwise it will cause abnormal use or even cause pet safety problems.
3. Please place the feeder horizontally, and it is recommended to place it against the wall to prevent tripping over wires or being torn by pets.
4. Please do not intrude the body and power supply into the water, because it will damage the electronic components.
5. Check the device after installation, if there is water on the power cord or plug, please do not power on.
6. Children must be used under the guidance of an adult.
7. Be sure to unplug the unit before installing and removing spare parts.
8. If you do not use the product for a long time; please remember to unplug it.
9. Do not attempt to repair or modify the pet feeder.
10. If you need to use an extension cord, use an extension cord with the same rating.
- 11.Using accessories that are not supplied or recommended by the original factory will result in an unsafe situation.
12. Please read carefully the precautions listed in the instructions and on the package.
13. The illustrations of the products and accessories in the manual, such as the user interface of the tonneau, are schematic diagrams for reference only. Due to product updates and upgrades, there may be slight differences between the actual product and the schematic, please also prevail in kind.

## FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
