

FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:  
(1) This device may not cause harmful interference, and  
(2) this device must accept any interference received, including interference that may cause undesired operation.  
NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:  
Reorient or relocate the receiving antenna.  
-Increase the separation between the equipment and receiver.  
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.  
-Consult the dealer or an experienced radio/TV technician for help.  
NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.  
The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Wireless version :V5.4.....\_Transmission distance: about 10 meters \_

Instructions for use

**Power on:** Press and hold the power button for about 3 seconds, when the indicator light flashes red and blue alternately,it means that the headphones has been turned on.  
**Wireless connection:** For the first time use, after the headphones is turned on, it will enter Wireless pairing mode. At this time, you can search for [XUNDU B032] in the Wireless settings of your phone. Once connected, the indicator light will flash slowly in blue. The blue light will turn off when music is playing.  
**Change the paired device:** Disconnect the Wireless from the currently paired device. The indicator light on the headphones will flash red and blue alternately. Other devices can then search for [XUNDU B032] and click to connect.  
**Power off:** Press and hold the power button for about 3 seconds to power off the device. The indicator light will turn off  
**Charging:** When connected, the phone will display the headphones' battery status. If a low battery warning appears, it means you need to charge the headphones. Use a 5V charger to connect the charging cable and charge the headphones..  
**Notice**  
If sweat is present on the magnetic charging contacts during use, please wipe it clean before opening the silicone plug for charging. Use only a 5V charger; **using a charger with more than 5V can cause the headphones to overheat, potentially damaging the battery and motherboard.**
