

G2 AR Glasses User Manual

按键 (key):

左侧按键控制光机亮度 (Left button controls the brightness of the optical machine)

右侧旋钮键按下为“确认”，按键按下为“返回”

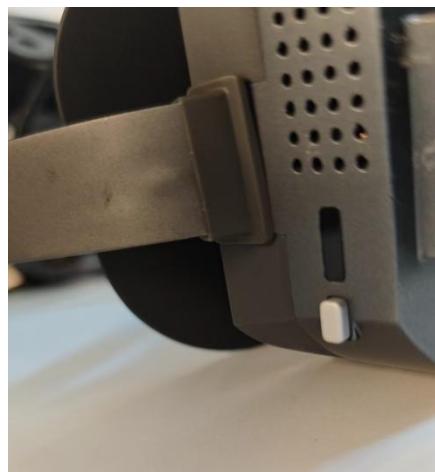

Press the right knob key to confirm, and press the key to return

系统开机，长按 box 上的按键 6s 后松开，待听到风扇转动，表示成功开机

Power on the system, press and hold the button on the box for 6 seconds, then release it.

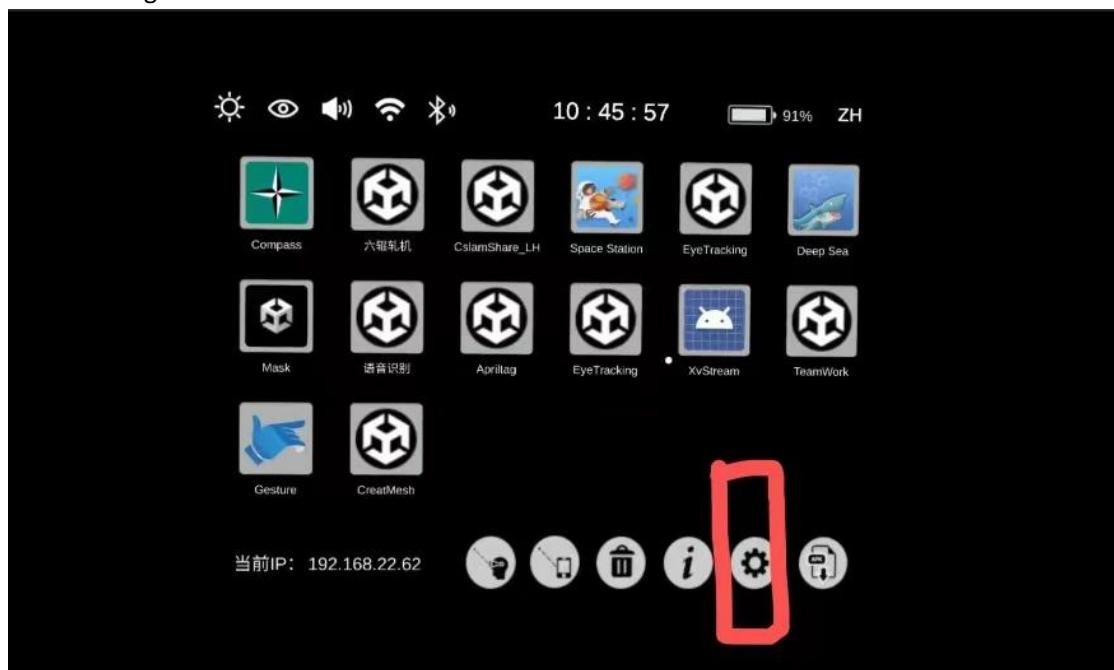

Wait until you hear the fan turning to indicate successful power on

操作 operate:

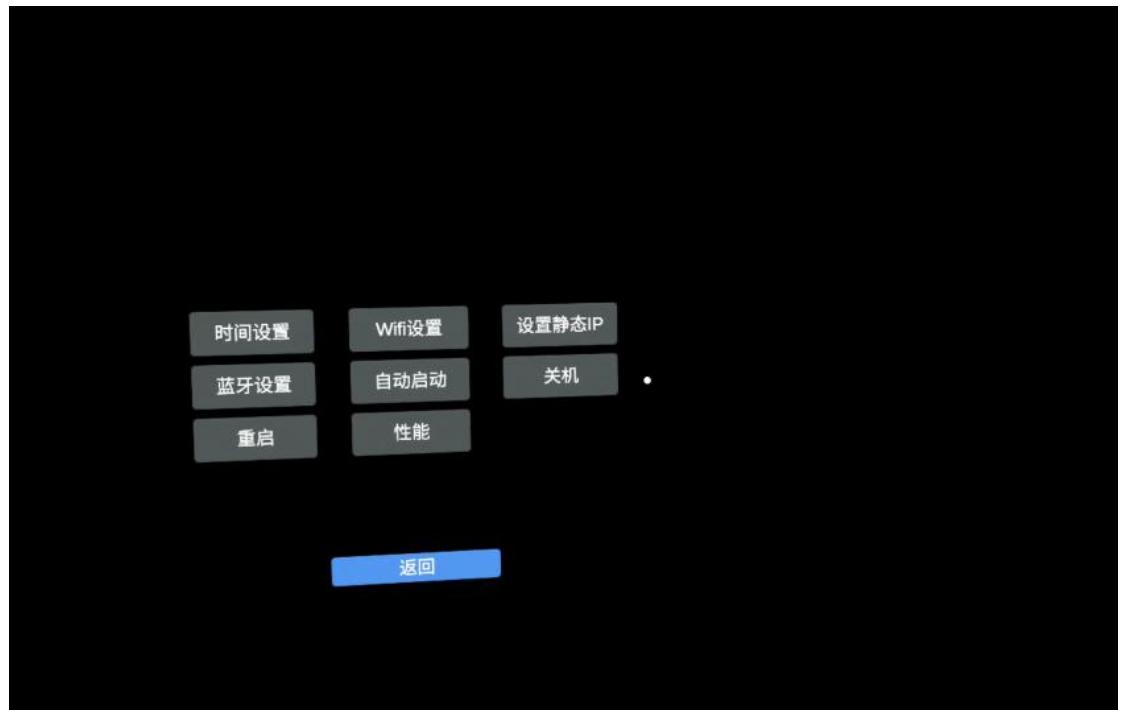

1. 连接 wifi (Connect to WiFi)

① 光机点亮后, 如图, 使用手势或头瞄选中设定图标
① After the light machine lights up, as shown in the picture, use gestures or head aiming to select the setting icon

② 进入设定菜单后, 选择 Wifi 设置

② After entering the settings menu, select Wifi settings

③ 打开 WiFi 列表后，选择 wifi，在虚拟键盘上，输入密码进行连接，连接成功后如下
③ After opening the WiFi list, select WiFi, enter the password on the virtual keyboard to connect, and after successful connection, as shown in the following figure.

2. 进入应用

2. Enter the application

在 launcher 上，用手势选择任意应用，或用头瞄选中任意应用后按下旋钮键，即可进入当前选择的应用

On the launcher, use gestures to select any application, or use a head sight to select any application and press the knob key to enter the currently selected application

FCC Statement

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference. (2) This device must accept any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
