### **Attestation Statement – FCC §2.911(d)(5)(i) / Covered List (Kaspersky Lab) Non-Applicability Declaration**

Date: 25.07.10

Applicant: analogizm

FCC ID: 2BP8W-OBJECT-9

Product Name: Object Speaker

Pursuant to §2.911(d)(5)(i) and §2.903 of the FCC rules, and in accordance with FCC Report and Order FCC-22-84 regarding equipment covered under the "Covered List", including cybersecurity and anti-virus software produced by Kaspersky Lab, Inc., its successors, and assignees, the undersigned hereby provides the following attestation.

#### **Declaration of Inherent Compliance**

The device referenced above is a Bluetooth speaker. It is a hardware-only product that:

- Does not contain any operating system capable of running third-party software,
- Has no storage capacity or memory architecture suitable for installing or executing software applications,
- Cannot connect to the internet or external devices in any way other than via Bluetooth audio streaming,
- Has no embedded or pre-installed cybersecurity or antivirus software,
- Therefore, is not capable of storing or running any software included in the FCC's Covered List, including any software developed or distributed by Kaspersky Lab, Inc.

#### **Conclusion**

As such, this product is inherently compliant with FCC §2.903 and does not require a Software Bill of Materials (SBOM) under the FCC-22-84 order.
