EUT Internal View 4

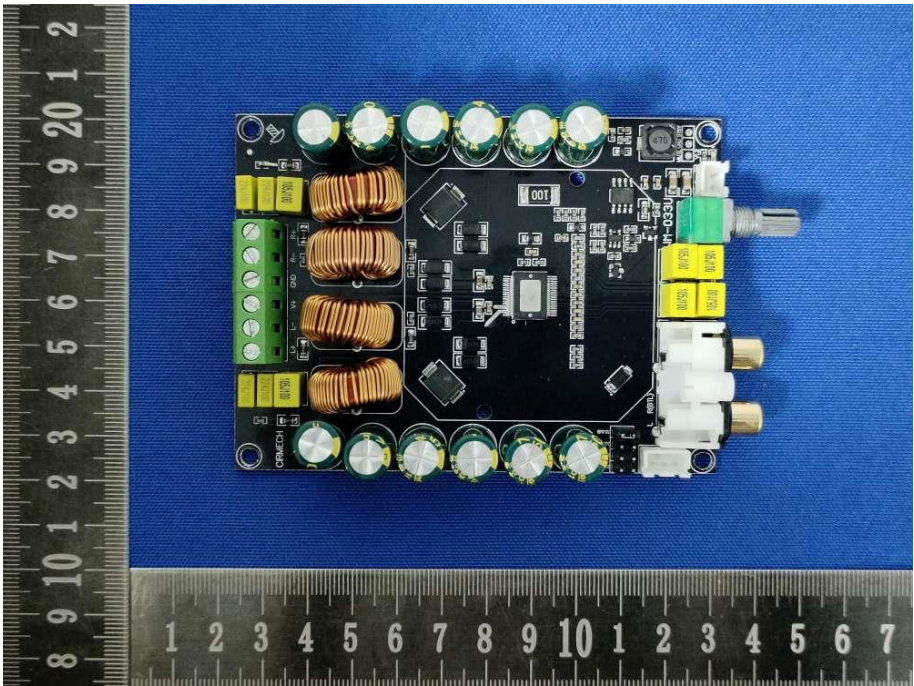

A photograph of a small, rectangular, black printed circuit board (PCB) with various electronic components and a ruler for scale. The PCB is populated with numerous surface-mount components, including resistors, capacitors, and integrated circuits. A prominent feature is a large, dark, rectangular component, possibly a microcontroller or a specialized IC, located towards the right side. The board has several circular holes along its perimeter, likely for mounting or ventilation. A ruler is placed horizontally below the board, showing measurements in centimeters, with markings from 0 to 10 visible. The background is a solid, light-colored surface.
