Solder Board-Component View 3	 A photograph of a rectangular green printed circuit board (PCB) component. The board is populated with various electronic components, including integrated circuits, resistors, and capacitors. It features several labeled pins and connectors, such as 'HALL1', 'LED-G', 'LED-R', 'KEY', 'BROW', 'DEC-USB', 'VCC-IN', 'VCC-R', 'D40', 'USB-IN', 'ANT', and 'BAT'. The board is placed on a blue textured surface. A vertical ruler on the left and a horizontal ruler at the bottom provide scale, with the horizontal ruler showing the component is approximately 10 cm long.
Solder Board-Component View 4	 A photograph of a circular green printed circuit board (PCB) component. The board has a central circular cutout and is populated with electronic components, including a microcontroller, resistors, and capacitors. It features a micro-USB port and other connectors. The board is placed on a blue textured surface. A vertical ruler on the left and a horizontal ruler at the bottom provide scale, with the horizontal ruler showing the component is approximately 5 cm in diameter.

Solder Board-Component View 5	 A photograph of a green, circular printed circuit board (PCB) component with a central circular cutout. The component is positioned on a blue textured surface. To its left is a vertical ruler with markings from 1 to 10 mm. Below the component is a horizontal ruler with markings from 1 to 10 mm. The component's diameter is approximately 10 mm.
Solder Board-Component View 6	 A photograph of a green rectangular PCB component with a central cutout, oriented vertically. It is connected to a white flexible cable. The component is placed on a blue textured surface. To its left is a vertical ruler with markings from 1 to 9 mm. Below it is a horizontal ruler with markings from 1 to 10 mm. The component's height is approximately 4 mm and its width is approximately 1.5 mm. Text on the component includes "REV1.0", "DD3010-T", "2PW157171A", and "HAFB".

Solder Board-Component View 7	 A photograph of a small green printed circuit board (PCB) component with a white multi-pin connector and two silver solder tabs. The component is placed on a blue textured surface next to a metal ruler for scale. The ruler shows markings in millimeters, with the component spanning approximately 1.5 cm.
Solder Board-Component View 8	 A photograph of a small green printed circuit board (PCB) component with a circular shape and a gold-colored tab. The component is placed on a blue textured surface next to a metal ruler for scale. The ruler shows markings in millimeters, with the component spanning approximately 1.5 cm.

Solder Board-Component View 9	 A photograph of a small, circular green printed circuit board (PCB) component with a central hole. The component is mounted with several surface components, including a black integrated circuit (IC) and several resistors. It is placed on a blue textured surface next to a metal ruler for scale. The ruler has markings in millimeters (0.5mm, 1mm, 2mm, 3mm, 4mm, 5mm, 6mm, 7mm, 8mm) and centimeters (1, 2, 3, 4, 5, 6, 7, 8).
Solder Board-Component View 10	 A photograph of the same circular green PCB component from a different angle. This view shows the underside of the component, revealing the solder joints and the components on the reverse side. The text "REV:1.0" and "DC1133S" is visible on the board. It is placed on a blue textured surface next to a metal ruler for scale. The ruler has markings in millimeters (0.5mm, 1mm, 2mm, 3mm, 4mm, 5mm, 6mm, 7mm, 8mm) and centimeters (1, 2, 3, 4, 5, 6, 7, 8).
