Solder Board-Component View 4	 A photograph of a blue printed circuit board (PCB) component, labeled '2021.5.28 DD7006-RF V1.0', positioned next to a black ruler. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The component is a small, rectangular board with various electronic components, including a large silver component on the left and a green component on the right. The background is a blue fabric surface.
Solder Board-Component View 5	 A photograph of the same blue printed circuit board (PCB) component, labeled '2021.5.28 DD7006-RF V1.0', positioned next to a black ruler. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The component is a small, rectangular board with various electronic components, including a large silver component on the left and a green component on the right. The background is a blue fabric surface.

Solder Board-Component View 6	 A photograph of a small green printed circuit board (PCB) component, likely a surface-mount device, placed on a blue fabric background. The component is rectangular with several pins visible along its edges. A black L-shaped ruler is positioned next to the component for scale. The vertical ruler on the left shows markings from 0 to 100 mm, and the horizontal ruler at the bottom shows markings from 0 to 100 mm. The component is located approximately at the 40 mm mark on the vertical ruler and the 40 mm mark on the horizontal ruler.
Solder Board-Component View 7	 A photograph of a larger blue printed circuit board (PCB) component, likely a surface-mount device, placed on a blue fabric background. The component is rectangular with various components, including a large integrated circuit (IC) and several smaller components. A black L-shaped ruler is positioned next to the component for scale. The vertical ruler on the left shows markings from 0 to 200 mm, and the horizontal ruler at the bottom shows markings from 0 to 200 mm. The component is located approximately at the 100 mm mark on the vertical ruler and the 100 mm mark on the horizontal ruler.

Solder Board-Component View 8	 A photograph of a small blue printed circuit board (PCB) component, likely a module, placed on a blue fabric surface. A black ruler with white markings is positioned vertically to the left of the component, showing measurements in millimeters (0 to 100) and centimeters (10 to 100). The component has various electronic components, including a microcontroller, capacitors, and a small antenna.
Antenna View 1	433.92MHz Antenna  A photograph of the same blue PCB component from a different angle, showing the underside. A red box highlights a specific component, and a red line points from the text "433.92MHz Antenna" to it. The component is labeled "DO7006-POWER V1.3" and "2022.9.1". Other labels include "PbHS", "ZXH-2", "501358", "94V-0", and "103". The component is placed on a blue fabric surface.
