

Quick Installation Guide

WS1500
AX1500 Gigabit Wi-Fi 6 Router

Scan for support

1 Turn off the modem, and remove the battery if it has one.

3 Turn on the modem and then wait about 2 minutes for it to restart.

4 Connect the power adapter to the router and wait for the "Power" system indicator light to turn solid on.

2 Connect IIWUS's **WAN** port to your ISP modem.

5 Connect the router via **A** or **B** method.

A Wi-Fi: Connect your device to the router's Wi-Fi using the SSID (network name) and Password printed on the bottom of the router.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement

This device complies with FCC radiation exposure limits set forth for an uncontrolled environment and it also complies with Part 15 of the FCC RF Rules. This equipment must be installed and operated in accordance with provided instructions and the antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter. End-users and installers must be provided with antenna installation instructions and consider removing the no-collocation statement.

This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Caution!

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Canada Statement

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

B Wired: Turn off the Wi-Fi on your computer and connect it to the router's **LAN** port via an Ethernet cable.

6 Launch a web browser, and enter **http://iiwus.net/** or **http://192.168.10.1/** in the address bar. Create an administrator password to log in.

7 Then window below will pop up, please follow the step-by-step instructions to set up the internet connection.
