Board-Component
View 1

Solder Board-Component View 2	 A photograph of a white printed circuit board (PCB) component, labeled "ME-DISP-88-01" and "20231010", mounted on a blue fabric surface. The component is rectangular with a white connector on the left and a yellow connector on the right. It is positioned next to a metal ruler with millimeter markings. The ruler shows the component's width is approximately 6.5 mm and its height is approximately 1.5 mm.
Solder Board-Component View 3	 A photograph of the same white PCB component from a different angle, showing the underside. The component is labeled "DC5862B-V1" and "1209". It is mounted on a blue fabric surface and is positioned next to a metal ruler with millimeter markings. The ruler shows the component's width is approximately 4.5 mm and its height is approximately 1.5 mm.

Solder Board-Component View 4	 A photograph of a small, square, silver-colored component with two soldered wires. It is placed on a blue fabric surface next to a metal ruler. The ruler has markings in millimeters (0.5mm, 1mm) and centimeters (1, 2, 3, 4, 5, 6). The component is labeled "DC5862B-VI 1209".
Solder Board-Component View 5	 A photograph of a green printed circuit board (PCB) populated with various electronic components, including resistors, capacitors, and integrated circuits. The board is populated with numerous multi-pin connectors in red, yellow, blue, and white. It is placed on a blue fabric surface next to a metal ruler. The ruler has markings in millimeters (0.5mm, 1mm) and centimeters (1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12).
