Label location information for NINA-B302

The product label is affixed to the module shield cover as shown in Figure 1. The size of the label is 7.5 x 7.5 mm and contains the following information:

• A Data Matrix formatted bar code, with a unique serial number
• Date of unit production formatted YY/WW (year/week)
• Major and minor product version info
• Product marketing name (e.g, NINA-B302)

Figure 1: Label location of NINA-B302 (zoomed view)

Figure 2: Actual size of the NINA-B302 identifier marking (7.5 x 7.5 mm)

The modules are SMT components shipped to the OEM-integrator on Tape & Reel, packed in a sealed Dry-Pac bag, and mounted onto the host board by automatic "Pick & Place" machines. As the module is a surface mount device that is soldered onto the host, it is not possible to place the label on the secondary side of the module.

To be able to fit the FCC/IC certification number on the label, the font size has to be smaller than 4 points. Using such a small font size makes the certification number too small to be readable.

Therefore, in accordance with CFR 47 §2.925 (f), the FCC ID is not printed on the label but instead placed in the user manual and placed on the device packaging (e.g. Dry-Pac bag).

FCC ID: 2BPIP-NINAB30
IC: 34131-NINAB30

Registered Office:

CP Tech GmbH
Dornierstraße 7
33142 Büren
Germany

Company number: Registered in Paderborn HRB 8003.
