We SHENZHEN ARTEX TONGXUN Technology Co., Ltd (Company name) certify the product: Smart Glasses

● Common features of all models of this application unit product:

The circuits, components, printed circuit boards and layouts are all the same. Only the model names and appearances differ, but this does not affect safety and electromagnetic compatibility performance.

● Differences among all models of this application unit product:

The only difference between the A series and the P series models is the shape and width of the eyeglass frames, while the rest are the same. Below is a picture display.
