User Manual

Specifications:

Name: Bluetooth USB Adapter

Bluetooth model: BTA-V53

Bluetooth version: 5.3

Use IC: BR8652A12

Frequency range: 2402-2480MHz

Bluetooth profile: A2DP/HSP/AVRCP/HID/PAN/GAVDP/DID/OPT

Notice:

1. If your computer has built-in Bluetooth, please turn off the built-in Bluetooth
2. If your Windows system has not been updated in recent years, you need to upgrade the system, This 5.3 Bluetooth Adapter needs to use the newest driver software of Microsoft, and the driver software of Microsoft in previous years does not include 5.3 Bluetooth driver software.

1. Connect to a Computer

- a. Disable all existing Bluetooth devices (both built-in and third party) from the Device Manager on Windows.
- b. After restarting the computer, insert the Bluetooth adapter directly into the USB port. The Device Manager will display "BARROT Bluetooth Adaptermze", indicating that the device is fully operational.

2. Install Bluetooth Driver

- a. Driver-free installation on Windows 8/10/11:
Go to Settings > Bluetooth & other devices > Add device to pair.
- b. Click Add Device.
- c. The device is connected and fully operational.

3. Note: For Windows 8 and earlier versions, installation of the driver BRLink_V_1.1.2.2 is required.

- a. Insert the adapter into a USB port on your computer directly.
- b. Search for Bluetooth devices to connect.
- c. Select your Bluetooth device from the list and follow the onscreen instructions to complete pairing.

Frequently Asked Questions(FAQ)

Q1. What should I do if the Bluetooth icon doesn't appear?

- A1. Make sure you have turned on the Bluetooth in Windows settings.
- A2. If there are other Bluetooth devices on the computer, disable them in Device Manager, then insert the adapter and try again.

Q2. Why the adapter is not working with my Bluetooth device?

- A1. Make sure your device has BLUETOOTH function.
- A2. Make sure you have installed the latest Bluetooth driver on the computer.
- A3. For devices with non-standard Bluetooth protocols, such as Logitech Mouse, there may be some compatibility problems.

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the

user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
