

# User Manual

This product is a mini phone rear camera selfie & vlogging monitoring screen. It provides a practical solution to easily and efficiently capture higher-quality photos or videos using the phone's rear camera. It's suitable for YouTubers, Instagramers, Vloggers, and any content creator who wants to create high-quality selfie photos or videos.

Using this screen, you can monitor your framing status and ensure you are in the shooting while using the phone's rear camera. The screen can be connected to a smartphone through both wireless and wired methods. It is equipped with a 3.97-inch screen that can help you monitor more clearly. It has functions such as 180-degree screen rotation, screen brightness adjustment, full screen, or 1:1 screen switching. It has a compact structure, it's easy to carry, and simple to use.

## Specifications

**Model:** SJSN01  
**Input:** 5V 1A  
**Rated Power:** 1.75W  
**Battery Capacity:** 1500mAh  
**Working hours:** >2.5h  
**Voltage:** 3.7V  
**Power Input Port:** USB-C  
**Audio/Video Transmission Port:** USB-C

**Screen Size:** 3.97 Inches  
**Screen Resolution:** 480 X800 Pixels  
**Direction of Screen Viewing Angle:** Full Viewing Angle

**Screen Brightness:** Adjustable 300cd/m<sup>2</sup> (Max)

**Working Temperature:** 10~+40°C

**Storage Temperature:** 10~+40°C

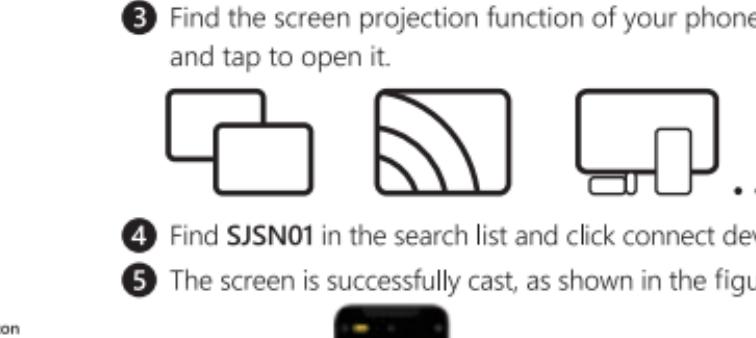

**Material:** Plastic+Metals

**Dimensions:** 105mm\* 63mm\*12.3mm

**Weight:** 105g

## FCC Statement

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The device has evaluated to meet general RF exposure requirement. The device can be used be in portable exposure without restriction.

L' émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d' Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L' exploitation est autorisée aux deux conditions suivantes:

1. L' appareil ne doit pas produire de brouillage;
2. L' appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d' en compromettre le fonctionnement.
