

## Quick Guide

## 1.Product Introduction

## 2.Operation Guide

### I. Bluetooth Pairing

- a. Press and hold the power button to turn on the glasses. If they don't power on, please charge them.
- b. Enable Bluetooth in system settings. The blue indicator will blink, indicating connection mode.
- c. Download the APP from the app store (see QR code below), then launch the APP.
- d. Tap "Search for Glasses" to pair via Bluetooth. Ensure your phone's Bluetooth is enabled.

Scan QR code to download APP

## 2.Operation Guide

### II. Controlling the Glasses

- a. Power Button: Long press (Turn On/Off), Short press (Sleep/Wake)
- b. Touch Control Area:
  - Swipe forward/backward
  - Long press to confirm
  - Double tap to return

### III. 3Charging

For proper charging, connect the charging cable as shown in the diagram on the right:

- a. Red indicator blinking: Low battery (charging in progress)
- b. Green indicator blinking: Battery level above 60%
- c. Green indicator steady: Fully charged

### 3.Installing Prescription Lens Frames

- a. Align the metal frame of the prescription lenses with the nose pad frame, ensuring the screw holes face downward.
- b. Match the holes on the prescription lens frame with the screw holes at the base, then secure them using the screwdriver from the toolkit. Do not remove the nose pad screws.

## 4.Packing List

Smart Glasses

Glasses Case

Prescription Lens Frame

USB Cable

Cleaning Cloth

Screws

Screwdriver

## 5.Specifications

Display: Micro-Led (G)

Display Type: Binocular Display

Material: TR90

Power Capacity: 200mAh

Speakers: 2

FOV: 30°

Optical Solution: Diffractive Waveguide

Microphones: 2

Size: 147\*155\*45mm

Power Switch: Mechanical ON/OFF

Resolution: 640\*480

Weight : 44g

Interaction: Touch Control / Physical Buttons

Indicators: Tri-color LED

Brightness: 1500nits(Adjustable)

Sensors: Accelerometer/Gyroscope/Ambient Light Sensor

## 6.Usage Notice

- User Group Notice

Due to incomplete visual development, minors under 18 years old should not use this product. No user should share this product with minors under 18.

Users with skin lesions in the wearing area, or those susceptible to low-temperature burns should not use this product.

This product does not support diopter adjustment. Users with myopia, hyperopia or astigmatism will experience blurred vision. Recommended to use with prescription lens inserts or wear contact lenses.

Before wearing, carefully inspect for physical damage (frame, lenses or nose pads). Immediately discontinue use if any damage is found.

For prescription lens inserts, consult a local optometrist for proper fitting.

Not recommended for persons with: epilepsy, hypertension, heart disease, acrophobia, severe myopia, mental disorders, or pregnancy. Discontinue immediately if experiencing dizziness, eye strain, or visual abnormalities (ghosting, distortion, discomfort or pain).

Some users may be allergic to plastics, leather or fibers, causing inflammation. Discontinue use and consult a doctor if such symptoms occur.

## 6.Usage Notice

- Usage Environment

Do not use this product in areas where wireless devices are explicitly prohibited (e.g., medical and healthcare facilities). Power off the device and accessories to avoid interference with other electronic equipment or potential hazards.

Do not use this product in unfamiliar environments where safety conditions are uncertain.

Avoid using this product during sudden movements or intense physical activity.

Exercise caution when using this product in moving vehicles (e.g., cars, buses, subways, or trains), as changes in speed and sudden movements may worsen adverse reactions.

Avoid using this product in noisy environments, as distractions may lead to hazards or encourage increasing the volume beyond safe levels.

Do not use this product in unpredictable environments or while driving at night, as it may pose life-threatening risks.Using this product may distract you in certain situations (e.g., reading messages while driving). Always comply with local laws restricting mobile device usage.

This product and accessories may contain small parts. Keep them out of children's reach to prevent accidental damage, choking, or other hazards.

## 6.Usage Notice

- Health Precautions

Do not use this product if you are ill, fatigued, under the influence of alcohol/drugs, or feeling unwell, as it may worsen your condition and increase usage risks.Consult your physician before use if you have serious health conditions (e.g., heart disease), mobility impairments, or are elderly.Avoid prolonged use to prevent eye strain. Take a 10-15 minute break every 2 hours.

- Cleaning & Maintenance

Keep the device and accessories dry. Do not use external heat sources (e.g., hair dryers).

Power off and disconnect all cables before cleaning.

Gently clean lenses with a mild detergent-dampened microfiber cloth (included), then dry with a lint-free cloth.Do not use other liquids or cleaning agents.

## 6.Usage Notice

- Device Safety

This product should not be worn simultaneously with any other type of eyewear (except for prescription lens inserts or contact lenses), as this may cause product damage or create unsafe user experience.

This product is not sold with a power adapter. If using a power adapter for charging, consumers should purchase adapters that meet standard requirements to avoid irreversible damage caused by inferior quality adapters.

The display in this product is manufactured using highly sophisticated technology. Avoid throwing, tossing or dropping the product, and protect it from strong impacts to prevent damage. If the product is dropped, crushed or impacted and damaged, discontinue use immediately. Do not use this product with unauthorized accessories or devices. For information about compatible devices, please visit our official website.

Do not disassemble, reassemble, modify, attempt to repair the product yourself, or have it repaired by unauthorized service providers. If the device is found to be obviously malfunctioning (even if some functions still work normally), discontinue use immediately to avoid electric shock or serious personal injury or death. The product assumes no responsibility for damages or injuries caused by improper or unsafe usage.

## 6.Usage Notice

- Eye Strain Prevention

When using this product, always adjust the display brightness to minimize the difference between the display brightness and ambient lighting. Do not set the display to maximum brightness in dark environments or minimum brightness in bright environments, as this may cause eye damage. If you experience eye strain or dizziness, discontinue use immediately.

- Adverse Reactions Notice

During use, moving images and changing light conditions may cause dizziness or loss of balance. If you experience any of the following symptoms, stop using the product and consult a doctor: convulsions, loss of consciousness, seizures, involuntary movements, dizziness, disorientation, nausea, drowsiness or fatigue, eye pain or discomfort, eye strain, eye twitching or visual abnormalities (such as distortion, blurring or double vision), excessive sweating, increased salivation, impaired balance, impaired hand-eye coordination, or other motion sickness-like symptoms. Note that using this product in moving vehicles (such as cars, buses, airplanes, trains or ships) may trigger or worsen these symptoms. Taking regular breaks during use can alleviate these symptoms and reduce health risks. If you notice swelling, itching, tingling or other discomfort on skin areas contacting the product, discontinue use. If symptoms persist, consult a doctor.

## 6.FCC Statement

- This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.
- Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
- Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
  - -Reorient or relocate the receiving antenna.
  - -Increase the separation between the equipment and receiver.
  - -Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
  - -Consult the dealer or an experienced radio/TV technician for help.
- The device has been evaluated to meet general RF exposure requirement.
