User Manual

Wireless Adapter for CarPlay & Android Auto

Wireless 2-in-1 Adapter

1

Critical Setup Notes

1.Please Remove original car Bluetooth from your phone's paired devices list to prevent connection conflicts.

2.Keep phone WiFi on without manual connection, the adapter will auto-connect after Bluetooth pairing (WiFi manual connection is used for OTA updates)

3.Please Pair Bluetooth ONLY between phone & the adapter (do NOT connect the adapter to car Bluetooth).

2

Compatibility Notes

• Please ensure that your car is compati- ble with wired CarPlay or Android Auto.

• The wireless CarPlay feature requires an iPhone 6 or a newer model with IOS 10 or higher.

• The wireless Android Auto feature requires an Android phone with version 11 or higher that supports the latest Android Auto features.

3

How to check your vehicle supports wired CarPlay or wired Android Auto

Method 1:
Connect your iPhone or Android smartphone to the vehicle using a USB data cable.
The connection interface logo will then appear on the car's display screen.

Method 2:
Refer to the compatibility list by Scanning the QR code or go to the website. Or contact your car manufacturer directly for confirmation.

Warning:
Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
NOTE:
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
FCC Statement:
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help.
The equipment complies with FCC Radiation exposure limit set forth for uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
