Packing List

Product Schematic Diagram

Tips

1. Do not attempt to disassemble or replace any parts inside the product, except for the operation methods indicated in the manual.
2. Do not put the product in water or any other liquid. This product is not waterproof.
3. If any liquid accidentally enters the product, disconnect and remove the product immediately.
4. To avoid electric shock, please make sure that your hands are not stained with water when installing or uninstalling the product.
5. Do not place this product near a heat source or directly expose it to a fire source.
6. Do not place this product in an environment with strong electromagnetic force, otherwise it may cause product malfunction.
7. Do not disassemble the battery without authorization, and do not expose the battery to baking or similar overheating environments to avoid causing a fire.

Product Specifications

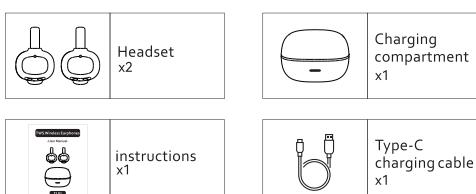

Bluetooth version: 5.4
Speaker specification: Medium 13mm
Earphone battery: 30 mAh * 2
Waterproof rating of earphones: IPX5
Charging compartment battery: 300mAh
Music duration: 4-5 hours (80% volume)
Talk time: 4-5 hours (80% volume)
Combined with the charging compartment, the total battery life is about 40 hours

Charge indicator

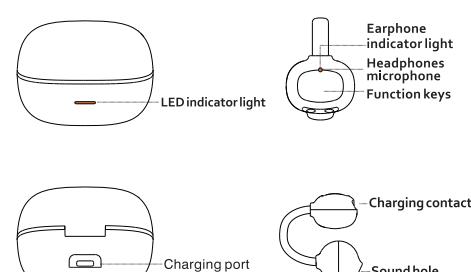

1. When the earphones need to be charged, please put them into the charging case.
2. Plug the USB end into the DC 5V charging socket, and connect the Type-c end to the headset charging port for charging. When charging, the orange LED indicator light beats and is full of constant light.
3. Charging case fully charged: about 1 hour. If the headphone battery level is below 3.4V, broadcast "Please charge" once every minute.

FCC Statement

This device complies with Part 15 of the FCC rules. Operation is subject to the

following two conditions: 1) this device may not cause harmful interference, and 2)

this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class

B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to

provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not

installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in particular installation. If this equipment does cause

harmful interference to radio or television reception, which can be determined by

turning the equipment off and on, the user is encouraged to try to correct the

interference by one or more of the following measures:

--Reorient or relocate the receiving antenna.

--Increase the separation between the equipment and receiver.

--Connect the equipment into an outlet on a circuit different from that to which the

receiver is connected.

--Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for

compliance could void the user's authority to operate the equipment.

FCC Radiation Exposure Statement

This device complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. The device can be used in portable exposure condition without restriction.
