Wireless Charging
Usage Instructions

1. The magnetic wireless charger for phones automatically recognizes and activates wireless charging, with the power indicator lighting up. The battery indicator will turn off after 30 seconds if no load is detected.

2. The LED indicator will blink when foreign objects are detected.

FCC Warning statement:
This device complies with part 15 of the FCC Rules. Operation is subject to the following conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
Any changes or modifications not expressly approved by the party responsible for compliance with the FCC Rules are prohibited.
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and may receive radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Consult the dealer or an experienced radio/TV technician for help.

FCC RF exposure statement:
This device has been evaluated to meet general RF exposure requirements. The device can be used without restrictions.
