

4. We'd Love to Hear from You!

If you have any tips or experiences from the installation or setup process, we warmly welcome you to share them in the Amazon review section. Your photos or videos could be helpful for other users who may have questions. Thank you for your support!

5. Technical Support

For technical support or any questions, feel free to contact our support team at: support@hautech.cn

HAUTECH

1. Introduction

Zigbee 3.0 USB Dongle is pre-flashed with Zigbee coordinator firmware. Plug it into the computer/Raspberry Pi, you can use it as a Zigbee coordinator in smart home open source platforms such as Home Assistant, openHAB, etc.

2. System Requirements

- A host device running Home Assistant, Zigbee2MQTT, or ZHA
- Recommended systems: Raspberry Pi, NUC, mini PC, or a Linux-based computer

3. Quick Installation Steps

- Plug the dongle into the USB port of your device
- Open Home Assistant or Zigbee2MQTT
- The system will automatically recognize and load the driver
- Once configured, you can start adding Zigbee end device

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
