BATTERY PRECAUTIONS

- The product uses one non replaceable 3.7V lithium battery;
- Rechargeable batteries must be charged under adult supervision;
- When charging a rechargeable battery, the toy switch should be turned off;
- The power terminal must not be short circuited;
- Cannot connect to more than the recommended number of power sources; During the use of USB cables, their wires, plugs, casings, and other components should be regularly checked for damage. If any damage is found, the use should be stopped until it is repaired.
- Connect the provided USB charging cable to a USB charger with an output DC voltage of 5V and a current of 1A to 2A for charging. The product can only be charged using the recommended charger, and non-standard or fast charging chargers are prohibited. The recommended charger and the provided USB charging cable are not toys.

WARNING!

- This product must be used under direct adult supervision.
- This product contains small balls and components. Please do not swallow to avoid choking hazards. It is not suitable for children under three years old.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
