A20 Portable Wireless Charger

Product Overview

Package Contents:

①: 5000mAh Wireless Charger*1 ②: User Manual*1

Specifications:

Model:	A20
Name:	Wireless Power Bank
Battery Capacity:	5000mAh (19.25Wh)
Rated Capacity:	3250mAh
Input:USB C Port/Cable:	5V=3A/9V=2A 18W
Output:USB C Port/Cable:	5V=3A/9V=2.22A/12V=1.67A 20W
Lightning Cable:	5V=2.4A
For Apple Watch:	5W
Multiple Ports:	5V=3A 15W(max)
Size:	8.7*6.1*1.8cm/3.4*2.4*0.7in

Product introduction

This product is a 5000mAh wireless watch charger adopting a high-polymer battery and designed with a digital battery level display for you to know the remaining power in real time. With built-in USB-C and Apple dual data cables, it is compatible with smartwatches, smartphones and other devices. Its palm-sized design with a built-in key ring makes it extremely portable. Made of high flame-retardant material and equipped with a six-point safety protection system including over-current, over-voltage and over-temperature protection, etc., it ensures safe charging. Suitable for various scenarios like home, office and travel, it allows you to charge devices anytime and anywhere, saying goodbye to battery anxiety.

Precautions:

- If the product expands or deforms, stop using it immediately
- Please keep it away from children to avoid improper use.
- Avoid using chargers with excessive output current or load
- Dispose of the battery according to local environmental law.
- Don't drop, crush, puncture. Otherwise, it damages the product.
- Don't leave the product in the car. High temperatures will damage the product.
- Don't put any foreign objects into the USB/USB C ports of the product to avoid short circuits or damage.
- Don't disassemble by yourself. Any shortened service life or damage caused by customers will not be borne by our company.
- To protect the battery lifespan. Charge the power bank at least once every three months
- Keep product away from liquids, fire, and extreme heat Don't Immerse it in water and use the product in high temperature and humid environment
- When using this power bank, do not place metal objects (such as keys coins, batteries, or jewelry) on it. Otherwise, it will cause abnormal charging or scalding

FCC NOTE

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures.

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement
The device can be used in portable exposure condition without restriction
