User Manual Declaration

August 5, 2025

IC Number: 34293-PYX1155

Model Number: 1155-00

Please be advised that at the time of application we do not currently have a version of the user manual that includes the required warning statements in French.

We understand that it is a mandatory requirement to supply notices and/or statements in both English and French at the time the product is made available to the Canadian market.

We declare that the product will not be marketed in Canada without the French and English versions of the warning statements in the manual.

Yours sincerely
