## IMPORTANT SAFETY STATEMENT

The device meets the requirements of Section 15 of FCC Rules. Its operation depends on the following two conditions:

- 1 This device will not cause any harmful interference.
- 2 This device must accept any possible interference, including that may lead to abnormal operation of the device.

Note:  
This device has been tested according to Section 15 of FCC Rules, and meets the restrictions for Class B digital devices. These restrictions are intended to provide reasonable protection against harmful interference from household devices. This device will generate, use and possibly radiate radio frequency energy. It may cause harmful interference to radio communication if it is not installed and used as instructed.

However, there is no guarantee that interference will not occur under specific installation conditions. If this device does cause harmful interference to radio or television reception, it can be determined by opening and closing the device. We encourage users to try one or more of the following measures to correct interference. Measures:

- 1 Reposition it or reposition the antenna.
- 2 Increase the separation distance between the device and receiver.
- 3 Connect the device to a power outlet different from the one to which the receiver is connected.
- 4 Consult Vifa or distributors or experienced radio/television technicians for help.

If the change or modification is not explicitly approved by the responsible party for compliance, the user may have no right to operate the device.  
The user manual of the license-free radio device shall include the following or equivalent notices in a conspicuous position of the user manual or device or both.  
This device complies with the license-free RSS standard of Industry Canada. Its operation depends on the following two conditions:

- 10 In particular, the plug and socket and power cord at the outlet of device should be protected from trampling or squeezing.
- 11 Only attachments/fittings specified by the manufacturer can be used.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

CE

Vifa hereby declares that the Bluetooth wireless product Reykjavik 2.0 (VFA072) complies with the EU Directive 2014/53 /EU.  
The radiation power in the range of 2402-2480MHz is less than 100dBm.  
The complete statement of compliance with EU standards can be downloaded from [www.vifa.dk](https://www.vifa.dk).  
The firmware version is equal to or higher than system 4.2.

The user manual of the license-free radio device shall include the following or equivalent notices in a conspicuous position of the user manual or device or both.  
This device complies with the license-free RSS standard of Industry Canada. Its operation depends on the following two conditions:

- 1 Read this manual.
- 2 Keep this manual properly.
- 3 Pay attention to all warnings.
- 4 Follow all instructions.
- 5 Do not use this device near water.
- 6 Clean it with dry cloth only.
- 7 Do not block any vents, and install it according to the manufacturer's instructions.
- 8 Do not install it near any heat source, such as the electric heater, hot air conditioner, heater or other heat generating device (including power amplifier).
- 9 Do not destroy any polar plugs or grounding plugs with safety function. The polar plug has two inserts, one wide and one narrow. The grounding plug has two plugs and one grounding pin. Among them, the wide insert or grounding pin is used to ensure your safety. If the plug provided does not match your socket, please ask the electrician to replace a suitable socket.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

CE

Vifa hereby declares that the Bluetooth wireless product Reykjavik 2.0 (VFA072) complies with the EU Directive 2014/53 /EU.  
The radiation power in the range of 2402-2480MHz is less than 100dBm.  
The complete statement of compliance with EU standards can be downloaded from [www.vifa.dk](https://www.vifa.dk).  
The firmware version is equal to or higher than system 4.2.

The user manual of the license-free radio device shall include the following or equivalent notices in a conspicuous position of the user manual or device or both.  
This device complies with the license-free RSS standard of Industry Canada. Its operation depends on the following two conditions:

- 10 In particular, the plug and socket and power cord at the outlet of device should be protected from trampling or squeezing.
- 11 Only attachments/fittings specified by the manufacturer can be used.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

This device complies with the license-free RSS standard of Industry Canada. Its operation depends on the following two conditions:

## Wired connection

Start Reykjavik 2.0, and press and hold the MODE key until the status indicator is white and always on.

Use (1) USB-C or (2) AUX to connect the cable to the jack on the back and play music from the device.

The status indicator is green and always on after the wired play connection is established.

\* When playing, press the Mute/pause button to mute or unmute music.

## Call

**Answer the incoming call**  
When the green light flashes, it indicates that there is an incoming call. Press this button to answer the incoming call.

**Terminate a call**  
During a call, press this button to interrupt the call.

**Reject a call**  
Press and hold this button to reject the call.

**Mute**  
During a call, press the Mute/pause button to mute or unmute, and the status indicator will flash in white.

## CSB Broadcast

The primary speaker, Reykjavik 2.0, is connected to Bluetooth and playing music.

Double-press the Link button on the primary speaker to enter broadcast mode, and the Link indicator will be solid green.

The second Reykjavik 2.0 speaker is turned on. Double-press the Link button to enter broadcast mode and search for the primary speaker. The Link indicator light will flash green.

The second speaker is successfully connected to the primary speaker broadcast, and the Link indicator of the second speaker is always green.

\*If you need to connect more Reykjavik 2.0 speakers, repeat the above steps for the second speaker.

## Connect two Reykjavik 2.0 speakers

Ensure that both Reykjavik 2.0 speakers are on. Press the Link button of (the primary) speaker until the Link indicator flashes yellow. Repeat the above operation in the second speaker (sub-speaker).

When two speakers are connected, their connection indicator lights are yellow and always on, indicating that the connection has been successful.

\* When the second speaker is connected, it will play the music of the previous speaker. Press the Link button to change the L-CH/R-CH. Press and hold the Link button to disconnect.

## TRADEMARK

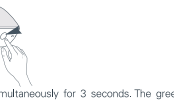

The Bluetooth® logo, Bluetooth designation and combination are trademarks owned by Bluetooth SIG Company.

Any use by Vifa Denmark ApS is under this license. Other trademarks and trade designations are the designations of their respective owners.

## TROUBLESHOOTING

### Factory settings

Press and hold the Power and VOL- buttons simultaneously for 3 seconds. The green, white, and blue lights will each flash for 1 second, then all previously paired Bluetooth pairing information and TWS/CSB broadcast pairing information will be cleared. The restart function operates normally and will not cause pairing information to be lost.

### Reset Reykjavik 2.0

It can be used when Reykjavik 2.0 crashes.

Press the restart button, Reykjavik 2.0 will shut down, and the user settings will not be lost.

If the product problems you encounter cannot be found in this user manual, you can contact support@vifa.dk by email or find more support on the official website www.vifa.dk

## SPECIFICATIONS

### Description

Portable wireless speaker  
Bluetooth® Wireless Technology  
AUX 3.5mm mini input  
USB play  
Lithium-ion battery  
DSP signal processing to optimize less distortion and improve accuracy  
3-channel pure digital power amplifier, 2 speakers can be connected at the same time  
Microphone and incoming call answering (including noise and echo filtering)  
Bluetooth® Wireless Technology  
AUX 3.5mm mini jack  
USB-C  
2X19mm vifa unit with treble soft dome and neodymium magnet  
88mm speaker unit with aluminum cone and neodymium magnet  
62 Hz to 20 kHz  
USB, 5V  
Automatic entry after no signal for 3 minutes  
Automatic entry after no signal for 30 minutes  
Lithium ion battery 23Wh  
65mm/139mm  
0.6 kg  
Anodised aluminium

## LIMITED WARRANTY BY VIFA

### Warranty Coverage

This limited warranty covers only the product functions in normal environment as specified in the instruction manual, and does not include the faults caused by improper or unreasonable use or maintenance, such as accidents, water ingress, improper packaging, lightning strikes, power surges or unauthorized tampering, and changes or modifications with out the authorization of Vifa. This limited warranty is limited to the repair or replacement of products determined by Vifa, and the transportation, relocation and installation expenses of products are not covered by this limited warranty.

### Warranty Period

The warranty period is 12 months/1 year, unless otherwise stated in the documents specified in the purchase or specified by local laws and regulations. The warranty period takes effect immediately after the product is delivered to the customer. If the product is

repaired/alterd by any company or individual not authorized by Vifa, or the serial number of the product is deleted from the product for whatever reason, the warranty period will stop immediately.

### Vifa Provides You with

Within the applicable warranty period, if Vifa receives the effective notice of any product defect within the warranty coverage, Vifa will take any of the following measures according to the actual situation within a reasonable time after receiving the notice of defect:

- 1 Repair the fault: free of charge and use new or refurbished replacement parts.
- 2 Replace with the same product.
- 3 Refund the amount of the purchased product.

The response time may vary from country to country, including the shipping of available parts. All the defective parts replaced will become the assets of Vifa. Vifa has no obligation to repair, replace or refund the defective product before the customer returns it to the authorized dealer. Any replaced

## How to Get Services

You should take the following measures in case of product defects:

- 1 Refer to the user manual to identify and correct problems.
- 2 If the problem cannot be solved by referring to the instruction manual, please contact the merchant/place where you originally purchased the product to inquire about the problem you want to solve.
- 3 If necessary, Vifa will arrange to repair or replace the product. Please show the date and address of the original invoice for your purchase of the product. The terms of repair or replacement are determined by the explicit extended terms at the time of delivery between you and the merchant/place and the relevant legal terms of local electronic products, and are not covered by this limited warranty.

If you want to transport the product, neither Vifa nor the distributor is

responsible for the damage of the product during transportation. Therefore, we always recommend that you pack your products in original cartons.

### Other Rights

This limited warranty does not affect your legal rights. This limited warranty offers you specific rights under specific conditions. You may also have other mandatory legal rights, depending on the country in which the product was originally purchased. This limited warranty does not affect similar legal rights and does not prevent you from seeking any legal compensation under the law.

### Limitations of warranty and liability

Except for any personal injury or property damage caused by Vifa's gross negligence, Vifa's maximum compensation shall not exceed the original price paid by you to purchase the product. In case of any personal injury and/or property damage caused by Vifa's gross negligence, Vifa shall only be liable for compensation for its direct losses.

Vifa reserves the right of final interpretation
