# Ceramic Antenna

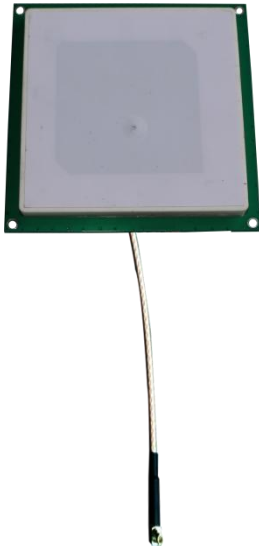

Model: KRT8090

## Descriptions

- ◆ 915MHz
- ◆ 5dBi
- ◆ Linear Polarization
- ◆ 80\*80\*7mm

## Applications

- ◆ Handheld reader
- ◆ Desktop reader
- ◆ RF reader
- ◆ Internet of Vehicles devices

### Electrical Specifications

|                   |                                     |
|-------------------|-------------------------------------|
| Frequency         | 902-928MHz                          |
| Gain              | 5dBi                                |
| Polarization      | Linear Polarization                 |
| Antenna axis than | ≤5dB                                |
| Impedance         | 50 Ω                                |
| Connector         | All kinds of terminal&SMA Connector |

### Mechanical Specifications

|                   |             |
|-------------------|-------------|
| Ceramic Dimension | 80*80*7mm   |
| Dimension         | 90*90*8mm   |
| Radome material   | Ceramic&PCB |
| Operating Temp.   | -20-60℃     |
