Product description

1 Power Switch

2 Type-C Cable Input/ Output

3 Power Display

4 Wireless Charging

5 Type-C Input/ Output

6 Bracket

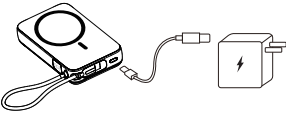

Specifications

Product size: 118.35\*94.5\*26.0mm  
Product weight: 223.5g  
Product capacity: 10500mAh(3.60V)  
Battery type: rechargeable lithium-ion battery cell  
Rated energy: 3800mAh 10.8V (31.0Wh) (3 cells in series)  
Repeatable charging times: < 300 times  
Suitable ambient temperature: 0℃-35℃

Type-C/Type-C Cable Input:  
5V/1.0A 9V/1.0A 12V/1.5A 15V/2.0A 20V/1.5A (30W Max)  
Type-C/Type-C Cable Output:  
5V/1.0A 9V/1.0A 12V/1.5A 15V/2.0A 20V/1.5A (45W Max)  
Wireless charging output: 5W(11W)/ 7.5W / 15W  
Total output: 5A(Max 15W)  
Rated capacity: 5500mAh(5V/1.5A)  
Energy conversion rate: >= 80%(15V/3A)

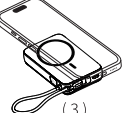

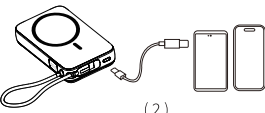

Instructions

1. Use the built-in Type-C cable or Type-C charging port with a fast charging adapter for fast input charging.

2. Use the built-in Type-C cable and Type-C charging port to quickly output and charge two devices simultaneously.

3. Use the wireless charging output function to charge wireless rechargeable mobile devices.

Matters needing attention

1. There is a danger of explosion if the battery is not replaced properly, and it should only be replaced with a battery of the same type or an equivalent type.

2. Batteries should not be exposed to environments such as sunlight, fire or similar excessive heat.

3. If consumers use a power adapter for charging, they should purchase a matching power adapter that has obtained CCC certification and meets the standard requirements.

4. Do not use after immersion in water.

#### FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates and can radiate radiofrequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The FCC certification of this device refers to RF exposure testing performed in typical operating conditions, where a person is no closer than 0 centimeters from the device surface at all times, except for non-repetitive patterns with transient time intervals in the order of a second. Only in the stated conditions, the device is shown to fully comply with the FCC RF Exposure requirements of KDB 447498.
