3. In the Settings menu, find the "Wireless Network" option.
4. Enable WLAN, then search for and select your home's Wi-Fi network.
5. Enter the password and click "Connect".

BLUETOOTH CONNECTION

Operation Steps

1. Turn on the projector and access the main interface.
2. Locate the "Settings" icon and select it to access the Settings menu.
3. In the Settings menu, find the "Bluetooth" option.
4. Enable Bluetooth, then search for and select your Bluetooth device.
5. Click to pair and connect.

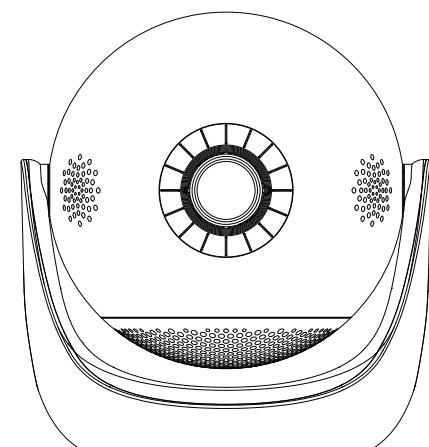

INFRARED REMOTE CONTROL

Notice:

1. It is recommended to use the remote control at a distance of no more than 8m
2. When using the remote control, make sure that there are no obstructions between the remote control and the projector

INSTRUCTION MANUAL

MODEL: FS210P-A

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
- This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
