

USER INSTRUCTION

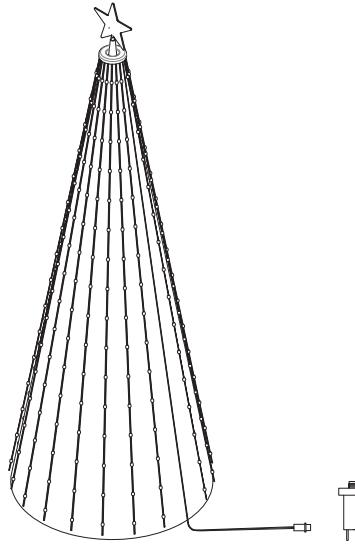

Ble Pixel Led Controller

I .Product Parameter:

Category	LED Controller
Domination Principle	Ble
APP	Surplife
Operation Platform	Android 7.0 or iOS12.0 or later
Input Voltage	DC5V
Supported Driver IC	WS2812B,SM16703,SM16704, WS2811,UCS1903,SK6812, INK1003,UCS2904B
Working Temperature	-20~+55°C
Control Distance	Visible distance 30M
Certification	CE, RoHS, FCC
Net Weight	630g
Dimension	1M*1M/2M*2M/3M*3M

Scan the "Instruction" QR code to read the electronic manual Or enter the APP FAQ to learn more.

Instruction

-6-

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
